OWENS-ILLINOIS ASBESTOS PERSONAL INJURY
TRUST DISTRIBUTION PROCEDURES

The Owens-Illinois Asbestos Personal Injury Trust Distribution Procedures (the “**TDP**”) contained herein provide for resolving all “Asbestos Claims.” as defined in the Third Amended Plan of Reorganization For Paddock Enterprises, LLC Under Chapter 11 of the Bankruptcy Code dated May 24, 2022 (as it may be amended or supplemented, the “**Plan**”),¹ as provided in and required by the Plan and the Owens-Illinois Asbestos Personal Injury Trust Agreement (the “**Asbestos Trust Agreement**”). The Plan and Asbestos Trust Agreement establish the Owens-Illinois Asbestos Personal Injury Trust (the “**Asbestos Trust**”). The Asbestos Trustees of the Asbestos Trust (the “**Trustees**”) shall implement and administer this TDP in accordance with the Asbestos Trust Agreement.

SECTION 1

Introduction

1.1 Purpose. This TDP has been adopted pursuant to the Asbestos Trust Agreement. It is designed to provide fair, equitable and substantially similar treatment for all Asbestos Claims that may presently exist or may arise in the future.

1.2 Interpretation. Except as expressly provided below, nothing in this TDP shall be deemed to create a substantive right for any claimant. The rights and benefits provided herein to holders of Asbestos Claims shall vest in such holders as of the Effective Date.

¹ Capitalized terms used herein and not otherwise defined shall have the meanings assigned to them in the Plan and the Asbestos Trust Agreement.

SECTION 2

Overview

2.1 Asbestos Trust Goals. The goal of the Asbestos Trust is to treat all claimants similarly and equitably in accordance with the requirements of Section 524(g) of the Bankruptcy Code. This TDP furthers that goal by setting forth procedures for processing and paying the Debtor's several share with respect to the unpaid portion of the liquidated value of asbestos claims generally on an impartial, first-in-first-out ("**FIFO**") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims based on historical values paid by the Debtor's predecessor, Owens-Illinois, Inc. ("**Old O-I**") for substantially similar claims in the applicable tort system.² To this end, the TDP establishes a schedule of eight asbestos-related diseases ("**Disease Levels**"), all of which have presumptive medical and exposure requirements ("**Medical/Exposure Criteria**"), seven of which have specific liquidated values ("**Scheduled Values**"), and five of which have anticipated average values ("**Average Values**") and caps on their liquidated values ("**Maximum Values**"). The Disease Levels, Medical/Exposure Criteria, Scheduled Values, Average Values and Maximum Values, which are set forth in Sections 5.3 and 5.4 below, have all been selected and derived with the intention of achieving a fair allocation of the Asbestos Trust funds as among claimants suffering from different disease processes in light of the best available information considering the domestic settlement history of Old O-I and the rights claimants would have in the applicable tort system absent the bankruptcy. A claimant may not assert more than one claim hereunder subject to the provisions set forth in Section 5.9 below.

² References to "tort system" shall include both domestic and foreign tort systems and other foreign claims resolution systems, where appropriate.

2.2 Claims Liquidation Procedures. Asbestos Claims shall generally be processed based on their place in the FIFO Processing Queue to be established pursuant to Section 5.1(a) below. The Asbestos Trust shall take all reasonable steps to resolve Asbestos Claims as efficiently and expeditiously as possible at each stage of claims processing and arbitration, which steps may include, in the Asbestos Trust's sole discretion, conducting settlement discussions with claimants' representatives with respect to more than one claim at a time, provided that the claimants' respective positions in the FIFO Processing Queue are maintained and each claim is individually evaluated pursuant to the valuation factors set forth in Section 5.3(b)(2) below. The Asbestos Trust shall also make every effort to resolve each year at least that number of Asbestos Claims required to exhaust the Maximum Annual Payment and the Maximum Available Payment for Category A and Category B claims, as those terms are defined below.

The Asbestos Trust shall, except as set forth below, liquidate all Asbestos Claims except Foreign Claims (as defined in Section 5.3(b)(1) below)³ that meet the presumptive Medical/Exposure Criteria of Disease Levels I–V, VII and VIII under the Expedited Review Process described in Section 5.3(a) below. Claims involving Disease Levels I–V, VII and VIII that do not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level may undergo the Asbestos Trust's Individual Review Process described in Section 5.3(b) below. In such a case, notwithstanding that the claim does not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level, the Asbestos Trust can offer the claimant an amount up to the Scheduled Value of that Disease Level if the Asbestos Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the applicable tort system.

³ For all purposes hereunder, Asbestos Claims of individuals exposed in Canada who were residents in Canada when such claims were filed shall be considered and treated as "domestic claims" (*i.e.*, non-Foreign Claims) with domestic settlement history.

Claimants holding Asbestos Claims involving Disease Levels IV, V, VII, and VIII may alternatively seek to establish a liquidated value for the claim that is greater than its Scheduled Value by electing the Asbestos Trust's Individual Review Process. However, the liquidated value of an Asbestos Claim that undergoes the Individual Review Process for valuation purposes may be determined to be less than the Scheduled Value for the applicable Disease Level, and in any event shall not exceed the Maximum Value for the relevant Disease Level set forth in Section 5.3(b)(3) below, unless the claim qualifies as an Extraordinary Claim as defined in Section 5.4(a) below, in which case its liquidated value cannot exceed the maximum extraordinary value specified in Section 5.4(a) for such claims. Level VI (Lung Cancer 2) claims and all Foreign Claims may be liquidated⁴ only pursuant to the Asbestos Trust's Individual Review Process.

Based upon Old OI's domestic claims settlement history in light of applicable tort law, and current projections of present and future unliquidated Asbestos Claims, the Scheduled Values and Maximum Values set forth in Section 5.3(b)(3) have been established for each of the Disease Levels that are eligible for Individual Review of their liquidated values. The Trustees shall use their best efforts to ensure that the Asbestos Trust processes claims such that over time the combination of domestic settlements at the Scheduled Values and those resulting from the Individual Review Process for those Disease Levels approximates the Average Values set forth in Section 5.3(b)(3) below for each such Disease Level.

All unresolved disputes over a claimant's medical condition, exposure history, and/or the validity or liquidated value of a claim shall be subject to binding or non-binding arbitration as set forth in Section 5.10 below, at the election of the claimant, under the ADR Procedures to be developed by the Asbestos Trust. Asbestos Claims that are the subject of a dispute with the

⁴ For purposes of this TDP, "liquidated" means approved and valued by the Asbestos Trust.

Asbestos Trust that cannot be resolved by non-binding arbitration may enter the tort system as provided in Sections 5.11 and 7.6 below. However, if and when a claimant obtains a judgment in the tort system, the judgment shall be payable (subject to the Payment Percentage, Maximum Available Payment, and Claims Payment Ratio provisions set forth below) as provided in Section 7.7 below.

2.3 Application of the Payment Percentage. After the liquidated value of an Asbestos Claim other than a claim involving Other Asbestos Disease (Disease Level I – Cash Discount Payment), as defined in Section 5.3(a)(3) below, is determined pursuant to the procedures set forth herein for Expedited Review, Individual Review, arbitration, or litigation in the tort system, as applicable, the claimant shall ultimately receive a pro-rata share of that value based on a Payment Percentage described in Section 4.2 below. The Payment Percentage shall also apply to all Pre-Petition Liquidated Claims as provided in Section 5.2 below and to all sequencing adjustments paid pursuant to Section 7.5 below.

The initial Payment Percentage is 100% (the “**Initial Payment Percentage**”). The Initial Payment Percentage shall apply to all Asbestos Trust Voting Claims approved for payment by the Asbestos Trust subject to the provisions of Section 4.2 below. The term “**Asbestos Trust Voting Claims**” includes (i) Pre-Petition Liquidated Claims as defined in Section 5.2(a) below; (ii) claims filed against Old O-I or the Debtor in the tort system or actually submitted to Old O-I or the Debtor pursuant to an administrative claims processing agreement prior to the Petition Date of January 6, 2020 (the “**Petition Date**”); and (iii) all asbestos claims filed against another defendant in the tort system prior to January 12, 2022, the date the initial Plan was filed with the Bankruptcy Court (the “**Plan Filing Date**”); provided, however, that (1) the holder of a claim described in subsection (i), (ii) or (iii) above, or his or her authorized agent, actually voted to accept or reject the Plan pursuant

to the voting procedures established by the Bankruptcy Court, unless such holder certifies to the satisfaction of the Trustees that he or she was prevented from voting in this proceeding as a result of circumstances resulting in a state of emergency affecting, as the case may be, the holder's residence, principal place of business or legal representative's place of business at which the holder or his or her legal representative receives notice and/or maintains material records relating to his or her Asbestos Trust Voting Claim; and provided further that (2) the claim was subsequently filed with the Asbestos Trust pursuant to Section 6.1 below by the Initial Claims Filing Date defined in Section 4.2 below.

The Payment Percentage may thereafter be adjusted from time to time by the Asbestos Trust with the consent of the Asbestos Trust Advisory Committee (the "TAC") and the Post-Effective Date Future Claimants' Representative to reflect then-current estimates of the Asbestos Trust's assets and its liabilities, as well as then-estimated value of then-pending and future Asbestos Claims. Any adjustment to the Initial Payment Percentage shall be made only pursuant to Section 4.2 below. If the Payment Percentage is increased over time, claimants whose claims were liquidated and paid in prior periods under the TDP shall receive additional payments only as provided in Section 4.2 below. Because there is uncertainty in the prediction of both the number and severity of future Asbestos Claims, and the value of the Asbestos Trust's assets, no guarantee can be made of any particular Payment Percentage that will be applicable to an Asbestos Claim's liquidated value.

2.4 Asbestos Trust's Determination of the Maximum Annual Payment and Maximum Available Payment. The Asbestos Trust shall model the cash flow, principal, and income year-by-year to be paid over its entire life to ensure that all present and future holders of Asbestos Claims are compensated at the then applicable Payment Percentage. In each year, based

upon that model of the cash flow, the Asbestos Trust shall be empowered to pay out the portion of its funds payable for that year according to the model (the “**Maximum Annual Payment**”). The Asbestos Trust’s aggregate distributions to all claimants for that year shall not exceed the Maximum Annual Payment. The then applicable Payment Percentage and the Maximum Annual Payment figures are based on projections over the lifetime of the Asbestos Trust. As noted in Section 2.3 above, if such long-term projections are revised, the applicable Payment Percentage may be adjusted accordingly, which would result in a new model of the Asbestos Trust’s anticipated cash flow and a new calculation of the Maximum Annual Payment figures.

However, year-to-year variations in the Asbestos Trust’s flow of claims or the value of its assets, including earnings thereon, will not mean necessarily that the long-term projections are inaccurate; they may simply reflect normal variations, both up and down, from the smooth curve created by the Asbestos Trust’s long-term projections. If, in a given year, however, asset values, including earnings thereon, are below projections, the Asbestos Trust may need to distribute less in that year than would otherwise be permitted based on the original Maximum Annual Payment derived from long-term projections. Accordingly, the original Maximum Annual Payment for a given year may be temporarily decreased if the present value of the assets of the Asbestos Trust as measured on a specified date during the year is less than the present value of the assets of the Asbestos Trust projected for that date by the cash flow model described in the foregoing paragraph. The Asbestos Trust shall make such a comparison whenever the Trustees become aware of any information that suggests that such a comparison should be made. If the Asbestos Trust determines that as of the date in question, the present value of the Asbestos Trust’s assets is less than the projected present value of its assets for such date, then it will remodel the cash flow year-by-year to be paid over the life of the Asbestos Trust based upon the reduced value of the total assets as so

calculated and identify the reduced portion of its funds to be paid for that year, which will become the Temporary Maximum Annual Payment (additional reductions in the Maximum Annual Payment can occur during the course of that year based upon subsequent calculations). If in any year the Maximum Annual Payment was temporarily reduced as a result of an earlier calculation and, based upon a later calculation, the difference between the projected present value of the Asbestos Trust's assets and the actual present value of its assets has decreased, the Temporary Maximum Annual Payment shall be increased to reflect the decrease in the differential. In no event, however, shall the Temporary Maximum Annual Payment exceed the original Maximum Annual Payment. As a further safeguard, the Asbestos Trust's distribution to all claimants for the first nine months of a year shall not exceed 85% of the Maximum Annual Payment determined for that year. If on December 31 of a given year, the original Maximum Annual Payment for such year is not in effect, the original Maximum Annual Payment for the following year shall be reduced proportionately.

In distributing the Maximum Annual Payment, the Asbestos Trust shall first allocate the amount in question to (a) outstanding Pre-Petition Liquidated Claims; (b) Asbestos Claims involving Disease Level I (Cash Discount Payment) that have been liquidated by the Asbestos Trust; and (c) Exigent Hardship Claims (as defined in Section 5.4(b) below). Should the Maximum Annual Payment be insufficient to pay all such claims in full, they shall be paid in proportion to the aggregate value of each group of claims and the available funds allocated to each group of claims shall be paid to the maximum extent to claimants in the particular group based on their place in their respective FIFO Payment Queue. Claims in any group for which there are insufficient funds shall be carried over to the next year, and placed at the head of their FIFO Payment Queue. If there is a decrease in the Payment Percentage prior to the payment of such

claims, any such Claims shall nevertheless be entitled to be paid at the Payment Percentage that they would have been entitled to receive but for the application of the Maximum Annual Payment. The remaining portion of the Maximum Annual Payment (the “**Maximum Available Payment**”), if any, shall then be allocated and used to satisfy all other liquidated Asbestos Claims, subject to the Claims Payment Ratio set forth in Section 2.5 below; provided, however, that if the Maximum Annual Payment is reduced during a year pursuant to the provisions above, the Maximum Available Payment shall be adjusted accordingly. Claims in the groups described in (a), (b), and (c) above shall not be subject to the Claims Payment Ratio.

2.5 Claims Payment Ratio. Based upon Old O-I’s domestic claims settlement history and an analysis of present and future Asbestos Claims, a Claims Payment Ratio has been determined which, as of the Effective Date, has been set at 93% for Category A claims, which consist of Asbestos Claims involving severe asbestosis, severe disabling pleural disease and malignancies (Disease Levels IV–VIII) and at 7% for Category B claims, which are Asbestos Claims involving non-malignant Asbestosis or Pleural Disease (Disease Levels II and III).

In each year, after the determination of the Maximum Available Payment described in Section 2.4 above, 93% of that amount shall be available to pay Category A claims and 7% shall be available to pay Category B claims that have been liquidated since the Petition Date; except for claims which, pursuant to Section 2.4 above, are not subject to the Claims Payment Ratio. If the Maximum Annual Payment is reduced during the year pursuant to the provisions of Section 2.4 above, the amounts available to pay Category A claims and Category B claims shall be recalculated based on the adjusted Maximum Available Payment. In the event there are insufficient funds in any year to pay the liquidated claims within either or both of the Categories, the available funds allocated to the particular Category shall be paid to the maximum extent to claimants in that

Category based on their place in the FIFO Payment Queue described in Section 5.1(b) below, which shall be based upon the date of claim liquidation. Claims for which there are insufficient funds allocated to the relevant Category shall be carried over to the next year where they shall be placed at the head of the FIFO Payment Queue. If there is a decrease in the Payment Percentage prior to the payment of such claims, any Released Claims, as defined in Section 4.3 below, shall nevertheless be entitled to be paid at the Payment Percentage that they would have been entitled to receive but for the application of the Claims Payment Ratio. If there are excess funds in either or both Categories, because there is an insufficient amount of liquidated claims to exhaust the respective Maximum Available Payment amount for that Category, then the excess funds for either or both Categories shall be rolled over and remain dedicated to the respective Category to which they were originally allocated. During the first nine months of a given year, the Asbestos Trust's payments to claimants in a Category shall not exceed the amount of any excess funds that were rolled over for such Category from the prior year plus 85% of the amount that would otherwise be available for payment to claimants in such Category.

The 93%/7% Claims Payment Ratio and its rollover provision shall apply to all Asbestos Trust Voting Claims as defined in Section 2.3 above (except Pre-Petition Liquidated Claims, Other Asbestos Disease claims (Disease Level I – Cash Discount Payment), and Exigent Hardship Claims), and shall not be amended until the third anniversary of the date the Asbestos Trust first accepts for processing proof of claim forms and other materials required to file a claim with the Asbestos Trust.

In considering whether to make any amendments to the Claims Payment Ratio and/or its rollover provisions, the Trustees shall consider the reasons for which the Claims Payment Ratio and its rollover provisions were adopted, the domestic settlement histories that gave rise to its

calculation, and the foreseeability or lack of foreseeability of the reasons why there would be any need to make an amendment.

In any event, no amendment to the Claims Payment Ratio may be made without the consent of the TAC and the Post-Effective Date Future Claimants' Representative. The consent process set forth in Sections 5.7(b) and 6.6(b) of the Asbestos Trust Agreement shall apply in the event of any amendments to the Claims Payment Ratio.

Notwithstanding any other provision herein, if at the end of a calendar year commencing in 2028, there are excess funds in either Category A or Category B and insufficient funds in the other Category to pay such Category's claims, the Trustees may transfer up to a specified amount of excess funds (the "**Permitted Transfer Amount**" as defined below) to the Category with the shortfall; provided, however that the Trustees shall never transfer more than the amount of the receiving Category's shortfall. The "Permitted Transfer Amount" shall be determined as follows: (a) the Trustees shall first determine the cumulative amount allocated to the Category with excess funds based on the Claims Payment Ratio since the date the Asbestos Trust last calculated its Payment Percentage; (b) the Trustees shall then determine the cumulative amount that the Asbestos Trust estimated would be paid to the Category with excess funds since the date the Asbestos Trust last calculated its Payment Percentage; (c) the Trustees shall then subtract the amount determined in (b) from the amount determined in (a), and the difference between the two shall be referred to as the "Permitted Transfer Amount." When deciding whether to make a transfer, the Trustees shall take into account any artificial failures of the processing queue that may have impacted the amount of funds expended from either Category. The Trustees shall provide the TAC and the Post-Effective Date Future Claimants' Representative with the Permitted Transfer Amount calculation thirty (30) days prior to making a transfer.

2.6 Indirect Asbestos Claims. As set forth in Section 5.6 below, Indirect Asbestos Claims, if any, shall be subject to the same categorization, evaluation, and payment provisions of this TDP as all other Asbestos Claims.

SECTION 3

TDP Administration

3.1 Asbestos Trust Advisory Committee and Post-Effective Date Future Claimants' Representative. Pursuant to the Plan and the Asbestos Trust Agreement, the Asbestos Trust and this TDP shall be administered by the Trustees in consultation with the TAC, which represents the interests of holders of present Asbestos Claims, and the Post-Effective Date Future Claimants' Representative, who represents the interests of holders of Asbestos Claims that may be asserted in the future. The Trustees shall obtain the consent of the TAC and the Post-Effective Date Future Claimants' Representative on any amendments to this TDP pursuant to Section 8.1 below, and on such other matters as are otherwise required below or in Section 2.2(f) of the Asbestos Trust Agreement. If any other consents are required for an amendment pursuant to the provisions of Section 8.1 below, the Trustees shall also obtain those consents. The Trustees shall also consult with the TAC and the Post-Effective Date Future Claimants' Representative on such matters as are provided below or in Section 2.2(e) of the Asbestos Trust Agreement. The initial Trustees, the initial members of the TAC and the initial Post-Effective Date Future Claimants' Representative are identified in the Asbestos Trust Agreement.

3.2 Consent and Consultation Procedures. In those circumstances in which consultation or consent is required, the Trustees shall provide written notice to the TAC and the Post-Effective Date Future Claimants' Representative of the specific amendment or other action that is proposed. The Trustees shall not implement such amendment nor take such action unless and until the parties have engaged in the consultation process described in Sections 5.7(a) and

6.6(a), or the consent process described in Sections 5.7(b) and 6.6(b), of the Asbestos Trust Agreement, respectively.

SECTION 4

Payment Percentage; Periodic Estimates

4.1 Uncertainty of the Debtor’s Personal Injury Asbestos Liabilities. As discussed above, there is inherent uncertainty regarding the Debtor’s total asbestos-related tort liabilities, as well as the total value of the assets available to the Asbestos Trust to pay Asbestos Claims. Consequently, there is inherent uncertainty regarding the amounts that holders of Asbestos Claims shall receive. To seek to ensure substantially equivalent treatment of all present and future Asbestos Claims, the Trustees must determine from time to time the percentage of full liquidated value that holders of present and future Asbestos Claims are likely to receive, *i.e.*, the “Payment Percentage” described in Section 2.3 above and Section 4.2 below.

4.2 Computation of Payment Percentage. As provided in Section 2.3 above, the Initial Payment Percentage shall be 100% and shall apply to all Asbestos Trust Voting Claims as defined in Section 2.3 above, unless the Trustees, with the consent of the TAC and the Post-Effective Date Future Claimants’ Representative, determine that the Initial Payment Percentage should be changed to assure that the Asbestos Trust shall be in a financial position to pay holders of unliquidated and/or unpaid Asbestos Trust Voting Claims and present and future Asbestos Claims in substantially the same manner.

In making any such adjustment, the Trustees, the TAC and the Post-Effective Date Future Claimants’ Representative shall take into account the fact that the holders of Asbestos Trust Voting Claims voted on the Plan relying on the findings of experts that the Initial Payment Percentage represented a reasonably reliable estimate of the Asbestos Trust’s total assets and liabilities over

its life based on the best information available at the time, and shall thus give due consideration to the expectations of the holders of Asbestos Trust Voting Claims that the Initial Payment Percentage would be applied to their Asbestos Claims.

Except with respect to Asbestos Trust Voting Claims to which the Initial Payment Percentage applies (subject to the provisions of this Section 4.2 set forth above), the Payment Percentage shall be subject to change pursuant to the terms of this TDP and the Asbestos Trust Agreement if the Trustees with the consent of the TAC and the Post-Effective Date Future Claimants' Representative determine that an adjustment is required. No less frequently than once every three (3) years, commencing with the first day of January occurring after the Effective Date, the Trustees shall reconsider the then applicable Payment Percentage to assure that it is based on accurate, current information and may, after such reconsideration, change the Payment Percentage if necessary with the consent of the TAC and the Post-Effective Date Future Claimants' Representative.

The Trustees shall also reconsider the then applicable Payment Percentage at shorter intervals if they deem such reconsideration to be appropriate or if requested to do so by the TAC or the Post-Effective Date Future Claimants' Representative. In any event, no less frequently than once every twelve (12) months, commencing on the date that the Asbestos Trust first makes available the proof of claim form and other claims materials required to file a claim with the Asbestos Trust (the six-month anniversary of the date the Asbestos Trust first makes available the proof of claim form and other claim materials required to file a claim being referred to herein as the "**Initial Claims Filing Date**"), the Trustees shall compare the liability forecast on which the then-applicable Payment Percentage is based with the actual claims filing and payment experience of the Asbestos Trust to date. If the results of the comparison call into question the ability of the

Asbestos Trust to continue to rely upon the current liability forecast, the Trustees shall undertake a reconsideration of the Payment Percentage.

The Trustees must base their determination of the Payment Percentage on current estimates of the number, types, and values of present and future Asbestos Claims, the value of the assets then available to the Asbestos Trust for their payment, all anticipated administrative and legal expenses, and any other material matters that are reasonably likely to affect the sufficiency of funds to pay a comparable percentage of full value to all holders of Asbestos Claims. When making these determinations, the Trustees shall exercise common sense and flexibly evaluate all relevant factors. The Payment Percentage applicable to Category A or Category B claims may not be reduced to alleviate delays in payments of claims in the other Category; both Categories of claims shall receive the same Payment Percentage, but the payment may be deferred as needed in compliance with this TDP.

4.3 Applicability of the Payment Percentage. Except as set forth below in this Section 4.3 with respect to supplemental payments, no holder of an Asbestos Trust Voting Claim shall receive a payment that exceeds the Initial Payment Percentage times the liquidated value of the claim. Except as otherwise provided (a) in Section 5.1(b) below for Asbestos Claims involving deceased or incompetent claimants for which approval of the Asbestos Trust's offer by a court or through a probate process is required and (b) in this Section 4.3 with respect to Released Claims, no holder of any other Asbestos Claim, other than an Asbestos Claim for Other Asbestos Disease (Disease Level I – Cash Discount Payment), shall receive a payment that exceeds the liquidated value of the claim times the Payment Percentage in effect at the time of payment; provided, however, that if there is a reduction in the Payment Percentage, the Trustees, in their sole discretion, may cause the Asbestos Trust to pay an Asbestos Claim based on the Payment

Percentage that was in effect prior to the reduction if such Asbestos Claim was filed and actionable with the Asbestos Trust ninety (90) days or more prior to the date the Trustees proposed the new Payment Percentage in writing to the TAC and the Post-Effective Date Future Claimants' Representative (the "**Proposal Date**") and the processing of such claim was unreasonably delayed due to circumstances beyond the control of the claimant or the claimant's counsel, but only if such claim had no deficiencies for the ninety (90) days prior to the Proposal Date. Asbestos Claims involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) shall not be subject to the Payment Percentage, but shall instead be paid the full amount of their Scheduled Value as set forth in Section 5.3(a)(3) below.

Except as otherwise set forth in this Section 4.3, if a redetermination of the Payment Percentage has been proposed in writing by the Trustees to the TAC and the Post-Effective Date Future Claimants' Representative but has not yet been adopted, the claimant shall receive the lower of the current Payment Percentage or the proposed Payment Percentage. However, if the proposed Payment Percentage was the lower amount but was not subsequently adopted, the claimant shall thereafter receive the difference between the lower proposed amount and the higher current amount. Conversely, if the proposed Payment Percentage was the higher amount and was subsequently adopted, the claimant shall thereafter receive the difference between the lower current amount and the higher adopted amount.

Notwithstanding anything contained herein, if the proposed Payment Percentage is lower than the current Payment Percentage, a claimant whose Asbestos Claim was liquidated prior to the Proposal Date and who either (a) transmitted⁵ an executed release to the Asbestos Trust prior to

⁵ For purposes of this sentence, "transmitted" is defined as the date/time postmarked if submitted by mail or the date/time uploaded if submitted electronically.

the Proposal Date or (b) with respect to those claimants who had received releases fewer than thirty (30) days prior to the Proposal Date, transmitted an executed release to the Asbestos Trust within thirty (30) days of the claimant's receipt of the release (the claims described in (a) and (b) are collectively referred to herein as the "**Released Claims**") shall be paid based on the current Payment Percentage (the "**Released Claims Payment Percentage**"). For purposes hereof, (a) a claimant represented by counsel shall be deemed to have received a release on the date that the claimant's counsel receives the release, (b) if the Asbestos Trust transmits a release electronically, the release shall be deemed to have been received on the date the Asbestos Trust transmits the offer notification, and (c) if the Asbestos Trust places the release in the U.S. mail, postage prepaid, the release shall be deemed to have been received three (3) business days after such mailing date. A delay in the payment of the Released Claims for any reason, including delays resulting from limitations on payment amounts in a given year pursuant to Sections 2.4 and 2.5 hereof, shall not affect the rights of the holders of the Released Claims to be paid based on the Released Claims Payment Percentage.

At least thirty (30) days prior to proposing in writing to the TAC and the Post-Effective Date Future Claimants' Representative a change in the Payment Percentage, the Trustees shall issue a written notice to claimants that have filed claims with the Asbestos Trust that have not yet been paid or their counsel indicating that the Trustees are reconsidering such Payment Percentage.

If the Trustees, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, make a determination to increase the Payment Percentage, the Trustees shall also make supplemental payments to all claimants who previously liquidated their claims filed with the Asbestos Trust and received payments based on a lower Payment Percentage. The amount of any such supplemental payment shall be the liquidated value of the claim in question times the newly

adjusted Payment Percentage, less all amounts previously paid to the claimant with respect to the claim (excluding the portion of such previously paid amounts that was attributable to any sequencing adjustment paid pursuant to Section 7.5 below).

The Trustees' obligation to make a supplemental payment to a claimant shall be suspended in the event the payment in question would be less than \$250.00, and the amount of the suspended payment shall be added to the amount of any prior supplemental payment/payments that was/were also suspended because it/they would have been less than \$250.00. However, the Trustees' obligation shall resume and the Trustees shall pay any such aggregate supplemental payments due the claimant at such time that the total exceeds \$250.00.

SECTION 5

Resolution of Asbestos Claims.

5.1 Ordering, Processing and Payment of Asbestos Claims.

5.1(a) Ordering of Asbestos Claims.

5.1(a)(1) Establishment of the FIFO Processing Queue. The Asbestos Trust shall order claims that are sufficiently complete to be reviewed for processing purposes on a FIFO basis except as otherwise provided herein (the "**FIFO Processing Queue**"). The claimant's position in the FIFO Processing Queue shall be determined by the date the claim is filed with the Asbestos Trust. If any claims are filed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the date of the diagnosis of the asbestos-related disease, with claimants with earlier diagnosis dates given priority over later diagnosed claims. If any claims are filed and diagnosed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the claimant's date of birth, with older claimants given priority over younger claimants.

5.1(a)(2) Effect of Statutes of Limitations and Repose. All unliquidated Asbestos Claims must meet either (i) for claims first filed in the tort system against Old O-I or the Debtor prior to the Petition Date, the applicable federal, state, or foreign statute of limitations and repose that was in effect at the time of the filing of the claim in the tort system, or (ii) for claims not filed against Old O-I or the Debtor in the tort system prior to the Petition Date, the applicable federal, state, or foreign statute of limitations and repose that was in effect at the time of the filing with the Asbestos Trust. However, the running of the relevant statute of limitations and repose shall be tolled as of the earliest of (A) the actual filing of the claim against Old O-I or the Debtor prior to the Petition Date, whether in the tort system or by submission of the claim to Old O-I or the Debtor pursuant to an administrative claims processing agreement; (B) the tolling of the claim against Old O-I or the Debtor prior to the Petition Date by an agreement or otherwise, provided such tolling is still in effect on the Petition Date; or (C) the Petition Date.

If an Asbestos Claim meets any of the tolling provisions described in the preceding sentence and the claim was not barred by the applicable federal, state, or foreign statute of limitations and repose at the time of the tolling event, it shall be treated as timely filed if it is actually filed with the Asbestos Trust within three (3) years after the Initial Claims Filing Date. In addition, any Asbestos Claims that were first diagnosed after the Petition Date, irrespective of the application of any relevant federal, state or foreign statute of limitations and repose, may be filed with the Asbestos Trust within three (3) years after the date of diagnosis or within three (3) years after the Initial Claims Filing Date, whichever occurs later. However, the processing of any Asbestos Claim by the Asbestos Trust may be deferred at the election of the claimant pursuant to Section 6.3 below. Notwithstanding any other provision hereof, if the holder of an Asbestos Claim cannot meet the presumptive medical criteria set forth in Section 5.3(a)(3) below for any Disease

Level, the applicable statute of limitations shall not begin running until the holder receives the evidence necessary to establish such medical criteria.

5.1(b) Payment of Asbestos Claims. Asbestos Claims that have been liquidated by the Expedited Review Process as provided in Section 5.3(a) below, by the Individual Review Process as provided in Section 5.3(b) below, by arbitration as provided in Section 5.10 below, or by litigation in the tort system provided in Section 5.11 below, shall be paid in FIFO order based on the date their liquidation became final (the “**FIFO Payment Queue**”), all such payments being subject to the applicable Payment Percentage, the Maximum Available Payment, the Claims Payment Ratio, and the sequencing adjustment provided for in Section 7.5 below, except as otherwise provided herein. Pre-Petition Liquidated Claims, as defined in Section 5.2 below, shall be subject to the Maximum Annual Payment and Payment Percentage limitations, but not to the Maximum Available Payment and Claims Payment Ratio provisions set forth above.

Where the claimant is deceased or incompetent, and the settlement and payment of his or her claim must be approved by a court of competent jurisdiction or through a probate process prior to acceptance of the claim by the claimant’s representative, an offer made by the Asbestos Trust on the claim shall remain open so long as proceedings before that court or in that probate process remain pending, provided that the Asbestos Trust has been furnished with evidence that the settlement offer has been submitted to such court or in the probate process for approval. If the offer is ultimately approved by the court or through the probate process and accepted by the claimant’s representative, the Asbestos Trust shall pay the claim in the amount so offered, multiplied by the Payment Percentage in effect at the time the offer was first made.

If any claims are liquidated on the same date, the claimant’s position in the FIFO Payment Queue shall be determined by the date of the diagnosis of the claimant’s asbestos-related disease,

with claimants having earlier diagnosis dates given priority over later diagnosed claims. If any claims are liquidated on the same date and the respective holders' asbestos-related diseases were diagnosed on the same date, the position of those claims in the FIFO Payment Queue shall be determined by the Asbestos Trust based on the dates of the claimants' birth, with older claimants given priority over younger claimants.

5.2 Resolution of Pre-Petition Liquidated Claims.

5.2(a) Processing and Payment. As soon as practicable after the Effective Date, the Asbestos Trust shall pay, upon submission by the claimant of the appropriate documentation, all Asbestos Claims that were liquidated (i) by a binding settlement agreement for the particular claim entered into prior to the Petition Date that was judicially enforceable as of the Petition Date by the claimant, (ii) under the terms of a binding administrative claims processing agreement entered into prior to the Petition Date that was judicially enforceable as of the Petition Date by the law firm that entered into such agreement and provided such Asbestos Claim was a calendar year 2019 or earlier claim under the terms of such agreement, (iii) by a jury verdict or non-final judgment in the tort system obtained prior to the Petition Date, provided there is no letter of credit, appeal bond, supersedeas bond or other security or surety (collectively, "**Security**") associated with such verdict or judgment, (iv) by a judgment that is final and non-appealable, or (v) as a result of being allowed by the Bankruptcy Court (collectively "**Pre-Petition Liquidated Claims**"). In order to receive payment from the Asbestos Trust, the holder of a Pre-Petition Liquidated Claim must submit all documentation necessary to demonstrate to the Asbestos Trust that the claim was liquidated in the manner described in the preceding sentence, which documentation shall include (A) a court authenticated copy of the jury verdict (if applicable), a non-final judgment (if applicable), a final judgment (if applicable), the settlement agreement (if applicable), the binding

administrative claims processing agreement (if applicable), or the Bankruptcy Court's order allowing the claim (if applicable) and (B) except in the case of a Pre-Petition Liquidated Claim arising from the Bankruptcy Court's order allowing the claim, the name, social security number and date of birth of the claimant and the name and address of the claimant's lawyer; provided, however, that such documentation shall not be required with respect to any Pre-Petition Liquidated Claim that the Debtor has identified to the Asbestos Trust as a Pre-Petition Liquidated Claim as defined above. The Debtor shall deliver to the Asbestos Trust a list of the Pre-Petition Liquidated Claims that the Debtor has approved for payment, which claims shall be entitled to rely upon the exception set forth in the preceding sentence.

The liquidated value of a Pre-Petition Liquidated Claim shall be the unpaid portion of the amount agreed to in the binding settlement agreement or the binding administrative claims processing agreement, the unpaid portion of the amount awarded by the jury verdict or non-final judgment, the unpaid portion of the amount of the final judgment, or the unpaid portion of the amount allowed by the Bankruptcy Court, as the case may be, plus interest, if any, that has accrued on that amount in accordance with the terms of the agreement, if any, or under applicable state law for settlements or judgments as of the Petition Date; however, except as otherwise provided in Section 7.4 below, the liquidated value of a Pre-Petition Liquidated Claim shall not include any punitive or exemplary damages. In addition, the amounts payable with respect to such claims shall not be subject to or taken into account in consideration of the Claims Payment Ratio and the Maximum Available Payment limitations, but shall be subject to the Maximum Annual Payment and Payment Percentage provisions. In the absence of a Final Order of the Bankruptcy Court determining whether a settlement agreement or an administrative claims processing agreement is binding and judicially enforceable, a dispute between the claimant and the Asbestos Trust over

this issue shall be resolved pursuant to the same procedures in this TDP that are provided for resolving the validity and/or liquidated value of an Asbestos Claim (i.e., arbitration and litigation in the tort system as set forth in Sections 5.10 and 5.11 below).

Pre-Petition Liquidated Claims shall be processed and paid in accordance with their order in a separate FIFO queue to be established by the Asbestos Trust based on the date the Asbestos Trust received all required documentation for the particular claim. If any Pre-Petition Liquidated Claims were filed on the same date, the claimants' position in the FIFO queue for such claims shall be determined by the date on which the claim was liquidated. If any Pre-Petition Liquidated Claims were both filed and liquidated on the same dates, the position of the claimants in the FIFO queue shall be determined by the dates of the claimants' birth, with older claimants given priority over younger claimants.

5.2(b) Marshalling of Security. Holders of Pre-Petition Liquidated Claims that are secured by any Security shall first exhaust their rights against such Security before making a claim against the Asbestos Trust. Only in the event that such Security is insufficient to pay such Pre-Petition Liquidated Claim in full shall the deficiency be processed and paid as a Pre-Petition Liquidated Claim by the Asbestos Trust.

5.3 Resolution of Unliquidated Asbestos Claims. As soon as possible after the establishment of the Asbestos Trust, the Trustees, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, shall adopt procedures for reviewing and liquidating all unliquidated Asbestos Claims, which shall include deadlines for processing such claims. Claimants seeking resolution of unliquidated Asbestos Claims shall be required to first file a confidential proof of claim form, together with the required supporting documentation, in accordance with the provisions of Sections 6.1 and 6.2 below. The proof of claim form, all

supporting documentation, and the Asbestos Trust's response thereto are evidence exchanged for the purpose of compromising, settling, and resolving the subject Asbestos Claim. The submissions and responses are exchanged with reliance on such confidentiality, and all such evidence is inadmissible in any judicial or administrative proceeding for any purpose other than the exceptions stated in Federal Rule of Evidence 408. The Asbestos Trust shall provide an initial confidential response to the claimant within three (3) months of receiving the proof of claim form.

The proof of claim form shall require the claimant to assert his or her claim for the highest Disease Level for which the claim qualifies at the time of filing. Irrespective of the Disease Level alleged on the proof of claim form, all claims shall be deemed to be a claim for the highest Disease Level for which the claim qualifies at the time of filing, and all lower Disease Levels for which the claim may also qualify at the time of filing or in the future shall be treated as subsumed into the higher Disease Level for both processing and payment purposes.

Upon the filing of a valid proof of claim form with the required supporting documentation, the claim shall be placed in the FIFO Processing Queue in accordance with the ordering criteria described in Section 5.1(a) above. When the claim reaches the top of the FIFO Processing Queue, the Asbestos Trust shall process and liquidate the claim based upon the medical/exposure evidence submitted by the claimant and under the process elected by the claimant. If the claimant fails to elect either the Individual Review Process or the Expedited Review Process, then the Asbestos Trust shall process and liquidate the claim under the Expedited Review Process, although the claimant shall retain the right to request Individual Review as described in Section 5.3(b) below.

5.3(a) Expedited Review Process.

5.3(a)(1) In General. The Asbestos Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient, consistent, and inexpensive method for

liquidating all Asbestos Claims (except those involving Lung Cancer 2 – Disease Level VI and Foreign Claims (as defined below), which shall only be liquidated pursuant to the Asbestos Trust’s Individual Review Process), where the claim can easily be verified by the Asbestos Trust as meeting the presumptive Medical/Exposure Criteria for the relevant Disease Level. Expedited Review thus provides claimants with a substantially less burdensome process for pursuing Asbestos Claims than does the Individual Review Process described in Section 5.3(b) below. Expedited Review is also intended to provide qualifying claimants a fixed and certain claims value.

Thus, claims that undergo Expedited Review and meet the presumptive Medical/Exposure Criteria for the relevant Disease Level shall be liquidated at the Scheduled Value for such Disease Level set forth in Section 5.3(a)(3) below. However, except for claims involving Other Asbestos Disease (Disease Level I), all claims liquidated by Expedited Review shall be subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio limitations set forth above; provided, however, that Exigent Hardship Claims shall not be subject to the Maximum Available Payment or the Claims Payment Ratio. Claimants holding claims that cannot be liquidated by Expedited Review because they do not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level may elect the Asbestos Trust’s Individual Review Process set forth in Section 5.3(b) below.

Subject to the provisions of Section 5.8 below, the claimant’s eligibility to have his or her Asbestos Claim liquidated at the Scheduled Value pursuant to the Expedited Review Process shall be determined solely by reference to the Medical/Exposure Criteria set forth below for each of the Disease Levels eligible for Expedited Review.

5.3(a)(2) Claims Processing Under Expedited Review. All claimants seeking liquidation of their claims pursuant to Expedited Review shall file a proof of claim form

with the Asbestos Trust. As a proof of claim form is reached in the FIFO Processing Queue, the Asbestos Trust shall determine whether the claim described therein meets the Medical/Exposure Criteria for one of the seven Disease Levels eligible for Expedited Review, and shall advise the claimant of its determination. If a Disease Level is determined, the Asbestos Trust shall tender to the claimant an offer of payment of the Scheduled Value for the relevant Disease Level multiplied by the applicable Payment Percentage, together with an Asbestos Claimant Release form. If the claimant accepts the Asbestos Trust's offer of payment and returns the release properly executed, the claim shall be placed in the FIFO Payment Queue, following which the Asbestos Trust shall disburse payment subject to the limitations of the Maximum Available Payment and Claims Payment Ratio, if any.

5.3(a)(3) Disease Levels, Scheduled Values and Medical/Exposure Criteria. The eight Disease Levels covered by this TDP, together with the Medical/Exposure Criteria for each and the Scheduled Values for the seven Disease Levels eligible for Expedited Review, are set forth below. These Disease Levels, Scheduled Values, and Medical/Exposure Criteria shall apply to all Asbestos Trust Voting Claims filed with the Asbestos Trust (except Pre-Petition Liquidated Claims) on or before the Initial Claims Filing Date provided in Section 5.1 above for which the claimant elects the Expedited Review Process. Thereafter, for purposes of administering the Expedited Review Process and with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, the Trustees may add to, change, or eliminate Disease Levels, Scheduled Values, or Medical/Exposure Criteria; develop subcategories of Disease Levels, Scheduled Values or Medical/Exposure Criteria; or determine that a novel or exceptional Asbestos Claim is compensable even though it does not meet the Medical/Exposure Criteria for any of the then current Disease Levels.

<u>Disease Level</u>	<u>Scheduled Value</u>	<u>Medical/Exposure Criteria</u>
Mesothelioma (Level VIII)	\$100,000	(1) Diagnosis ⁶ of mesothelioma, and (2) Debtor Exposure as defined in Section 5.7(b)(3).
Lung Cancer 1 (Level VII)	\$25,000	(1) Diagnosis of a primary lung cancer plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease ⁷ , (2) six months Debtor Exposure, (3) Significant Occupational Exposure ⁸ to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.

⁶ The requirements for a diagnosis of an asbestos-related disease that may be compensated under the provisions of this TDP are set forth in Section 5.7 below.

⁷ Evidence of “Bilateral Asbestos-Related Nonmalignant Disease,” for purposes of meeting the criteria for establishing Disease Levels I, II, III, V, and VII, means either (i) a chest X-ray read by a qualified B reader of 1/0 or higher on the ILO scale or (ii)(x) a chest X-ray read by a qualified B reader or other Qualified Physician, (y) a CT scan read by a Qualified Physician, or (z) pathology, in each case showing either bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification. Evidence submitted to demonstrate (i) or (ii) above must be in the form of a written report stating the results (e.g., an ILO report, a written radiology report or a pathology report). Solely for Asbestos Claims filed against Old O-I, the Debtor or another defendant in the tort system prior to the Petition Date, if an ILO reading is not available, either (i) a chest X-ray or a CT scan read by a Qualified Physician, or (ii) pathology, in each case showing bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification consistent with or compatible with a diagnosis of asbestos-related disease, shall be evidence of a Bilateral Asbestos-Related Nonmalignant Disease for purposes of meeting the presumptive medical requirements of Disease Levels I, II, III, V and VII. Pathological proof of asbestosis may be based on the pathological grading system for asbestosis described in the Special Issue of the Archives of Pathology and Laboratory Medicine, “Asbestos-associated Diseases,” Vol. 106, No. 11, App. 3 (October 8, 1982). For all purposes of this TDP, a “Qualified Physician” is a physician who is board-certified (or in the case of Canadian Claims or Foreign Claims, a physician who is certified or qualified under comparable medical standards or criteria of the jurisdiction in question) in one or more relevant specialized fields of medicine such as pulmonology, radiology, internal medicine or occupational medicine; provided, however, subject to the provisions of Section 5.8, that the requirement for board certification in this provision shall not apply to otherwise qualified physicians whose X-ray and/or CT scan readings are submitted for deceased holders of Asbestos Claims.

⁸ The term “Significant Occupational Exposure” is defined in Section 5.7(b)(2) below.

<u>Disease Level</u>	<u>Scheduled Value</u>	<u>Medical/Exposure Criteria</u>
Lung Cancer 2 (Level VI)	None	<p>(1) Diagnosis of a primary lung cancer, (2) Debtor Exposure, and (3) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.</p> <p>Lung Cancer 2 (Level VI) claims are claims that do not meet the more stringent medical and/or exposure requirements of Lung Cancer 1 (Level VII) claims. All claims in this Disease Level shall be individually evaluated. The estimated likely average of the individual evaluation awards for this category is \$29,400, with such awards capped at \$53,000 unless the claim qualifies for Extraordinary Claim treatment.</p> <p>Level VI claims that show no evidence of either an underlying Bilateral Asbestos-Related Nonmalignant Disease or Significant Occupational Exposure may be individually evaluated, although it is not expected that such claims shall be treated as having any significant value, especially if the claimant is also a Smoker.⁹ In any event, no presumption of validity shall be available for any claims in this category.</p>
Other Cancer (Level V)	\$10,800	(1) Diagnosis of a primary colo-rectal, laryngeal, esophageal, pharyngeal, or stomach cancer, plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease, (2) six months Debtor Exposure, (3) Significant

⁹ There is no distinction between Non-Smokers and Smokers for either Lung Cancer 1 (Level VII) or Lung Cancer 2 (Level VI), although a claimant who meets the more stringent requirements of Lung Cancer 1 (Level VII) (evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease plus Significant Occupational Exposure), and who is also a Non-Smoker, may wish to have his or her claim individually evaluated by the Asbestos Trust. In such a case, absent circumstances that would otherwise reduce the value of the claim, it is anticipated that the liquidated value of the claim might well exceed the \$25,000 Scheduled Value for Lung Cancer 1 (Level VII) shown above. “Non-Smoker” means a claimant who either (a) never smoked or (b) has not smoked during any portion of the twelve (12) years immediately prior to the diagnosis of the lung cancer.

<u>Disease Level</u>	<u>Scheduled Value</u>	<u>Medical/Exposure Criteria</u>
Severe Asbestosis (Level IV)	\$28,200	<p data-bbox="841 264 1414 443">Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the other cancer in question.</p> <p data-bbox="841 478 1414 1682">(1) Either (a) a diagnosis of asbestosis with ILO of 2/1 or greater, or asbestosis determined by pathological evidence of asbestosis, plus (x) TLC less than 65%, or (y) FVC less than 65% and FEV1/FVC ratio greater than 65%,¹⁰ (b) an “Asbestosis Death,” which is defined to mean a death where (x) asbestosis is listed as the cause or a significant contributing cause of death on the death certificate or (y) a report from a Qualified Physician who is a pathologist, a pulmonologist or an occupational medicine physician states that asbestosis was a significant contributing cause of death, or (c) a diagnosis of asbestosis with ILO of 2/1 or greater, or asbestosis determined by pathological evidence of asbestosis, plus (x) a Qualified Physician who is a pulmonologist or an occupational medicine physician prescribes oxygen to the injured party, (y) the treating Qualified Physician states that the predominant cause of the need for oxygen is asbestosis, and (z) the oxygen is needed by the injured party to perform activities of daily life (e.g., not oxygen that is prescribed only for comfort care, at night, for surgery, or on occasion), (2) six months Debtor Exposure, (3) Significant Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.</p>

¹⁰ This must be the actual measured value as opposed to the percentage of predicted.

<u>Disease Level</u>	<u>Scheduled Value</u>	<u>Medical/Exposure Criteria</u>
Asbestosis/Pleural Disease (Level III)	\$5,900	(1) Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease, plus (a) TLC less than 80%, or (b) FVC less than 80% and FEV1/FVC ratio greater than or equal to 65%, and (2) six months Debtor Exposure, (3) Significant Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.
Asbestosis/Pleural Disease (Level II)	\$2,900	(1) Diagnosis of a Bilateral Asbestos-Related Nonmalignant Disease, (2) six months Debtor Exposure, and (3) five years cumulative occupational exposure to asbestos.
Other Asbestos Disease (Level I – Cash Discount Payment)	\$400	(1) Diagnosis of a Bilateral Asbestos-Related Nonmalignant Disease or an asbestos-related malignancy other than mesothelioma, and (2) Debtor Exposure.

5.3(b) Individual Review Process.

5.3(b)(1) In General. Subject to the provisions set forth below, a claimant may elect to have his or her Asbestos Claim reviewed for purposes of determining whether the claim would be cognizable and valid in the applicable tort system even though it does not meet the presumptive Medical/Exposure Criteria for any of the Disease Levels set forth in Section 5.3(a)(3) above. In addition or alternatively, a claimant may elect to have a claim undergo the Individual Review Process for purposes of determining whether the liquidated value of a claim involving Disease Levels IV, V, VII or VIII exceeds the Scheduled Value for the relevant Disease Level also set forth in said provision. However, except for claimants who allege Lung Cancer 2 – Disease Level VI and all claimants with Foreign Claims (as defined below), until such time as the Asbestos Trust has made an offer on a claim pursuant to Individual Review, the claimant may change his or

her Individual Review election and have the claim liquidated pursuant to the Asbestos Trust's Expedited Review Process. In the event of such a change in the processing election, the claimant shall nevertheless retain his or her place in the FIFO Processing Queue.

The liquidated value of all Foreign Claims payable under this TDP shall be established only under the Asbestos Trust's Individual Review Process. Asbestos Claims of individuals exposed in Canada who were residents in Canada when such claims were filed ("**Canadian Claims**") shall not be considered Foreign Claims hereunder and shall be eligible for liquidation under, at the claimant's election, either the Expedited Review Process or the Individual Review Process. Accordingly, a "**Foreign Claim**" is an Asbestos Claim with respect to which the claimant's exposure to an asbestos-containing product or conduct for which the Debtor has legal responsibility occurred outside of the United States and its territories and possessions, and outside of the provinces and territories of Canada.¹¹

In reviewing Foreign Claims, the Asbestos Trust shall take into account all relevant procedural and substantive legal rules to which the claims would be subject in the Claimant's Jurisdiction as defined in Section 5.3(b)(2) below. The Asbestos Trust shall determine the liquidated value of Foreign Claims based on historical settlements and verdicts in the Claimant's Jurisdiction, as well as the other valuation factors set forth in Section 5.3(b)(2) below.

For purposes of the Individual Review Process for Foreign Claims, the Trustees, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, may develop separate Medical/Exposure Criteria and standards, as well as separate requirements for physician and other professional qualifications, which shall be applicable to all Foreign Claims channeled to

¹¹ Notwithstanding any other provision of this TDP, all issues related to Foreign Claims shall be agreed to by the Trustees, the TAC, and the Post-Effective Date Future Claimants' Representative.

the Asbestos Trust; provided however, that such criteria, standards or requirements shall not effectuate substantive changes to the claims eligibility requirements under this TDP, but rather shall be made only for the purpose of adapting those requirements to the particular licensing provisions and/or medical customs or practices of the foreign country in question.

At such time as the Asbestos Trust has sufficient historical settlement, verdict and other valuation data for claims from a particular foreign jurisdiction, the Trustees, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, may also establish a separate valuation matrix for any such Foreign Claims based on that data.

5.3(b)(1)(A) Review of Medical/Exposure Criteria. The Asbestos Trust's Individual Review Process provides a claimant with an opportunity for individual consideration and evaluation of an Asbestos Claim that fails to meet the presumptive Medical/Exposure Criteria for Disease Levels I–V, VII or VIII. In such a case, the Asbestos Trust shall either deny the claim or, if the Asbestos Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the applicable tort system, the Asbestos Trust can offer the claimant a liquidated value amount up to the Scheduled Value for that Disease Level.¹²

5.3(b)(1)(B) Review of Liquidated Value. Claimants holding claims in Disease Levels IV–VIII shall also be eligible to seek Individual Review of the liquidated value of their claims, as well as of their medical/exposure evidence. The Individual Review Process is intended to result in payments equal to the full liquidated value for each claim multiplied by the Payment Percentage; however, the liquidated value of any Asbestos Claim that undergoes

¹² In reviewing a claim that does not meet the presumptive exposure criteria set forth in Section 5.3(a)(3) above because the alleged exposure to asbestos or Asbestos Containing Products for which the Debtor has legal responsibility occurred after December 31, 1958, the Asbestos Trust shall take into consideration the shelf life of the products that were produced by Old O-I on or before December 31, 1958.

Individual Review may be determined to be less than the Scheduled Value the claimant would have received under Expedited Review. Moreover, the liquidated value for a claim involving Disease Levels IV–VIII shall not exceed the Maximum Value for the relevant Disease Level set forth in Section 5.3(b)(3) below, unless the claim meets the requirements of an Extraordinary Claim described in Section 5.4(a) below, in which case its liquidated value cannot exceed the maximum extraordinary value set forth in Section 5.4(a) for such claims. Because the detailed examination and valuation process pursuant to Individual Review may require additional time and effort, claimants electing to undergo the Individual Review Process may be paid the liquidated value of their Asbestos Claims later than would have been the case had the claimant elected the Expedited Review Process. Subject to the provisions of Section 5.8 below, the Asbestos Trust shall devote reasonable resources to the review of all claims to ensure that there is a reasonable balance maintained in reviewing all classes of claims.

5.3(b)(2) Valuation Factors to Be Considered in Individual Review.

The Asbestos Trust shall liquidate the value of each Asbestos Claim that undergoes Individual Review based on the historic liquidated values of other similarly situated claims in the applicable tort system for the same Disease Level. The Asbestos Trust shall thus take into consideration all of the factors that affect the severity of damages and values within the applicable tort system including, but not limited to, credible evidence of (i) the degree to which the characteristics of a claim differ from the presumptive Medical/Exposure Criteria for the Disease Level in question; (ii) factors such as the claimant’s age, disability, employment status, disruption of household, family or recreational activities, dependents, special damages, and pain and suffering; (iii) the industry of exposure; (iv) settlement and verdict histories and other law firms’ experience in the Claimant's Jurisdiction for similarly situated claims; and (v) settlement and verdict histories for

the claimant's law firm for similarly situated claims. Where the claimant's law firm submits clear and convincing evidence to the Asbestos Trust, and the Trustees determine, in their sole discretion, that the claimant's law firm, prior to the Petition Date, played a substantial role in the prosecution, trial and resolution of asbestos personal injury claims against Old O-I or the Debtor in the Claimant's Jurisdiction, such as actively participating in court appearances, discovery and trial of the subject cases (evidence will be required of all three phases: prosecution, trial and resolution for each law firm involved; necessary evidence will include evidence of active participation in the cases; and the mere referral of a case, without further involvement, will not be viewed as having played a substantial role in the prosecution and resolution of a case), irrespective of whether a second law firm also was involved, the Asbestos Trust shall include such cases in the settlement and verdict histories for the claimant's law firm in the Claimant's Jurisdiction. If this occurs, the claimant's law firm shall certify, as required by the Asbestos Trust, that it has provided all settlement and verdict history information for asbestos cases against Old O-I and the Debtor in which claimant's law firm, prior to the Petition Date, played a substantial role in the prosecution, trial and resolution of the asbestos personal injury claims against Old O-I or the Debtor in the Claimant's Jurisdiction, as described above.

For purposes of this TDP, the "Claimant's Jurisdiction" is the jurisdiction in which the claim was filed (if at all) against Old O-I or the Debtor in the tort system prior to the Petition Date. If the claim was not filed against Old O-I or the Debtor in the tort system prior to the Petition Date, the claimant may elect as the Claimant's Jurisdiction either (i) the jurisdiction in which the claimant resides at the time of diagnosis or when the claim is filed with the Asbestos Trust or (ii) a jurisdiction in which the claimant experienced exposure to asbestos or an asbestos-containing product or to conduct for which the Debtor has legal responsibility.

With respect to the “Claimant’s Jurisdiction” in the event a personal representative or authorized agent makes a claim under this TDP for wrongful death with respect to which the governing law of the Claimant’s Jurisdiction could only be the Alabama Wrongful Death Statute, the Claimant’s Jurisdiction for such claim shall be the Commonwealth of Pennsylvania, and such claimant’s damages shall be determined pursuant to the statutory and common laws of the Commonwealth of Pennsylvania without regard to its choice of law principles. The choice of law provision in Section 7.4 below applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant’s Jurisdiction pursuant to Section 5.3(b)(2) is determined to be the Alabama Wrongful Death Statute, shall only govern the rights between the Asbestos Trust and the claimant.

5.3(b)(3) Scheduled, Average and Maximum Values. The Scheduled, Average and Maximum Values for domestic claims involving Disease Levels I–VIII are the following:

<u>Scheduled Disease</u>	<u>Scheduled Value</u>	<u>Average Value</u>	<u>Maximum Value</u>
Mesothelioma (Level VIII)	\$100,000	\$145,300	\$382,600
Lung Cancer 1 (Level VII)	\$25,000	\$55,900	\$100,700
Lung Cancer 2 (Level VI)	None	\$29,400	\$53,000
Other Cancer (Level V)	\$10,800	\$13,400	\$32,400
Severe Asbestosis (Level IV)	\$28,200	\$39,400	\$82,400
Asbestosis/Pleural Disease (Level III)	\$5,900	None	None
Asbestosis/Pleural Disease (Level II)	\$2,900	None	None
Other Asbestos Disease – Cash Discount Payment (Level I)	\$400	None	None

These Scheduled Values, Average Values and Maximum Values shall apply to all Asbestos Trust Voting Claims other than Pre-Petition Liquidated Claims filed with the Asbestos Trust on or

before the Initial Claims Filing Date as provided in Section 5.1 above. Thereafter, the Asbestos Trust, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative pursuant to Sections 5.7(b) and 6.6(b) of the Asbestos Trust Agreement, may change these valuation amounts for good cause and consistent with other restrictions on the amendment power. In addition, commencing on January 1, 2023, the Asbestos Trust shall increase these valuation amounts by one percent (1%) per annum. Any such increases shall be applicable to offers made following the dates of such increases.

5.4 Categorizing Claims as Extraordinary and/or Exigent Hardship.

5.4(a) Extraordinary Claims. "Extraordinary Claim" means an Asbestos Claim that otherwise satisfies the Medical/Exposure Criteria for Disease Levels II–VIII, and that is held by a claimant whose exposure to asbestos (i) occurred predominantly as a result of working in a manufacturing facility of Old O-I during a period in which Old O-I was manufacturing asbestos-containing products at that facility, or (ii) was at least 75% the result of Debtor Exposure (as defined in Section 5.7(b)(3) below), and in either case there is little likelihood of a substantial recovery elsewhere. All such Extraordinary Claims shall be presented for Individual Review and, if valid, shall be entitled to an award of up to a maximum extraordinary value of five (5) times the Scheduled Value set forth in Section 5.3(b)(3) for claims qualifying for Disease Levels II–V, VII and VIII, and five (5) times the Average Value for claims in Disease Level VI, in either case multiplied by the applicable Payment Percentage.

Any dispute as to Extraordinary Claim status shall be submitted to a special Extraordinary Claims Panel (the "**Extraordinary Claims Panel**") established by the Asbestos Trust with the consent of the TAC and the Post-Effective Date Future Claimants' Representative. All decisions of the Extraordinary Claims Panel shall be final and not subject to any further administrative or

judicial review. An Extraordinary Claim, following its liquidation, shall be placed in the FIFO Payment Queue ahead of all other Asbestos Claims except Pre-Petition Liquidated Claims, Disease Level I Claims, and Exigent Hardship Claims, which shall be paid first, based on its date of liquidation, and shall be paid subject to the Maximum Available Payment and Claims Payment Ratio described above.

To be eligible for a payment under this TDP, the holder of an Asbestos Claim submitted for Extraordinary Claim review must provide the following additional information:

5.4(a)(1)(A) Requirement to Identify Other Claims. A claimant seeking Extraordinary Claim review must submit the information described in Section 5.4(a)(1)(B) about all other claims asserted by the claimant that relate in any way to the alleged injuries for which the claimant seeks compensation. Other claims about which information must be submitted include claims by the claimant, the claimant's decedent, and any present or past holder of the Asbestos Claim. Other claims include, but are not limited to, the following: (a) lawsuits filed in any court, arbitration proceedings before any panel or tribunal, and administrative proceedings (such as workers' compensation claims) before any governmental or quasi-governmental body; (b) claims that were resolved or settled without the institution of litigation (such as pre-filing settlements reached after notification of the existence of a claim without the need to file a lawsuit); and (c) claims that have been submitted in bankruptcy proceedings or to other asbestos trusts or claim resolution facilities that resulted from bankruptcy proceedings.

5.4(a)(1)(B) Information Required About Other Claims. A claimant seeking Extraordinary Claim review shall submit the following information for each other claim: (a) the name of the entity against whom the other claim was made, (b) the date of the other claim, and (c) the amounts of all payments received or to be received from the entity to whom the other claim

was submitted. The claimant must also submit copies of any documents submitted to or served upon any such entity containing information regarding the alleged injured party's contact with or exposure to asbestos or asbestos-containing products, including without limitation any claim forms submitted to other asbestos trusts or claim resolution facilities that resulted from bankruptcy proceedings (along with any attachments), ballots submitted by or on behalf of the claimant in any bankruptcy case, and any discovery response filed or served in tort litigation. The claimant shall also certify that, to the best of his or her knowledge, at that time, with the exception of the other claims that have been expressly disclosed and identified by the claimant, no other entity is known to the claimant to be potentially responsible for the alleged injuries that are the basis of the Extraordinary Claim.

5.4(a)(1)(C) Authorization for Release of Information. Any claimant seeking Extraordinary Claim review shall execute a release of information form in favor of the Asbestos Trust, in the form attached as Appendix I, authorizing all other asbestos trusts and claim resolution facilities against whom any such other claim has been made or asserted based on the injured party's injury to release to the Asbestos Trust all information submitted to it by such claimant or entity who made such other claim and to disclose the status of any such claim and the amount and date of any payment on the claim. The release of information form shall authorize the Asbestos Trust to obtain all submissions made by the claimant or his or her heirs, executors, successors, or assigns in the future to any other asbestos trust or claim resolution facility. The Asbestos Trust may amend the form attached as Appendix I from time to time to add newly established asbestos trusts or claim resolution facilities. The Asbestos Trust may utilize the authorization form not only to verify information provided in connection with particular Extraordinary Claims but also in connection with audits pursuant to the provisions of Section 5.8 hereof.

5.4(a)(1)(D) Claimant Certification. If the claimant seeking Extraordinary Claim review is or has been represented by an attorney in any litigation or in the filing of other asbestos trust claims based on the injury that forms the basis for the Extraordinary Claim, the claimant's attorney shall provide a certification under penalty of perjury. The certification shall affirm that the attorney has fully investigated the alleged injuries that are the basis of the Extraordinary Claim, including conferring with any other attorneys who represent the claimant asserting the Extraordinary Claim with respect to claims against other asbestos trusts or any other entity, and that no good-faith basis exists, at the time the certification is executed, to bring a claim against any entity that is not identified in the proof of claim form submitted to the Asbestos Trust by the claimant asserting the Extraordinary Claim. If the claimant seeking Extraordinary Claim Review has not been represented by an attorney in any litigation or in the filing of other asbestos trust claims based on the injury that forms the basis for the Extraordinary Claim, the claimant shall provide a certification under penalty of perjury that he or she has fully investigated the alleged injuries that are the basis of the Extraordinary Claim, and that no good-faith basis exists, at the time the certification is executed, to bring a claim against any entity that is not identified in the proof of claim form submitted to the Asbestos Trust by the claimant.

5.4(b) Exigent Hardship Claims. At any time the Asbestos Trust may liquidate and pay Asbestos Claims that qualify as Exigent Hardship Claims as defined below. Such claims may be considered separately no matter what the order of processing otherwise would have been under this TDP. An Exigent Hardship Claim, following its liquidation, shall be placed first in the FIFO Payment Queue ahead of all other liquidated Asbestos Claims except Pre-Petition Liquidated Claims, and Disease Level I Claims, which claims, together with the Exigent Hardship Claims, shall be paid in accordance with the provisions of Section 2.4 hereof. An Asbestos Claim qualifies

for payment as an Exigent Hardship Claim if the claim meets the Medical/Exposure Criteria for Severe Asbestosis (Disease Level IV) or an asbestos-related malignancy (Disease Levels V–VIII), and the Asbestos Trust, in its sole discretion, determines that (i) the claimant needs financial assistance on an immediate basis based on the claimant’s expenses and all sources of available income, and (ii) there is a causal connection between the claimant’s dire financial condition and the claimant’s asbestos-related disease.

5.5 Secondary Exposure Claims. If a claimant alleges an asbestos-related disease resulting solely from exposure to an occupationally exposed person, such as a family member, the claimant may seek either Expedited Review or Individual Review of his or her claim. In all such cases, the claimant must establish that the occupationally exposed person would have met the exposure requirements under this TDP for the claimant’s Disease Level that would have been applicable had the occupationally exposed person filed a direct claim against the Asbestos Trust. In addition, the claimant with secondary exposure must establish that he or she is suffering from one of the eight Disease Levels described in Section 5.3(a)(3) above or an asbestos-related disease otherwise compensable under this TDP, that his or her own exposure to the occupationally exposed person occurred within the same time frame as that in which the occupationally exposed person was experiencing Debtor Exposure, and that such secondary exposure was a cause of the claimed disease. All other liquidation and payment rights and limitations under this TDP shall be applicable to such claims.

5.6 Indirect Asbestos Claims. Indirect Asbestos Claims asserted against the Asbestos Trust shall be treated as presumptively valid and paid by the Asbestos Trust subject to the applicable Payment Percentage if (a) the holder of such claim (the “**Indirect Claimant**”) establishes to the satisfaction of the Trustees that (i) the Indirect Claimant has paid in full the

liability and obligation of the Asbestos Trust to the individual claimant to whom the Asbestos Trust would otherwise have had a liability or obligation under this TDP (the “**Direct Claimant**”), (ii) the Direct Claimant and the Indirect Claimant have forever and fully released the Asbestos Trust, the Debtor, the Reorganized Debtor, the Non-Debtor Affiliates, and all other Protected Parties from all liability to the Direct Claimant, and (iii) the claim is not otherwise barred by a statute of limitations or repose or by other applicable law and (b) the Asbestos Trust has not yet paid the Direct Claimant. In no event shall any Indirect Claimant have any rights against the Asbestos Trust superior to the rights of the related Direct Claimant against the Asbestos Trust, including any rights with respect to the timing, amount, or manner of payment. In addition, no Indirect Asbestos Claim may be liquidated and paid in an amount that exceeds what the Indirect Claimant has actually paid the related Direct Claimant.

To establish a presumptively valid Indirect Asbestos Claim, the Indirect Claimant’s aggregate liability for the Direct Claimant’s claim must also have been fixed, liquidated and paid fully by the Indirect Claimant by settlement (with an appropriate full release in favor of the Asbestos Trust) or a Final Order (as defined in the Plan) and such claim must be valid under the applicable state, federal, or foreign law. In any case where the Indirect Claimant has satisfied the claim of a Direct Claimant against the Asbestos Trust under applicable law by way of a settlement, the Indirect Claimant shall obtain a release for the benefit of the Asbestos Trust, the Debtor, the Reorganized Debtor, the Non-Debtor Affiliates, and the other Protected Parties substantially in the form and substance of the Asbestos Claimant Release.

If an Indirect Claimant cannot meet the presumptive requirements set forth above, including the requirement that the Indirect Claimant provide the Asbestos Trust, the Debtor, the Reorganized Debtor, the Non-Debtor Affiliates, and the other Protected Parties with a full release

of the Direct Claimant's claim, the Indirect Claimant may request that the Asbestos Trust review the Indirect Asbestos Claim individually to determine whether the Indirect Claimant can establish under applicable state, federal, or foreign law that the Indirect Claimant has paid all or a portion of a liability or obligation that the Asbestos Trust had to the Direct Claimant. If the Indirect Claimant can show that it has paid all or a portion of such a liability or obligation and the Asbestos Trust has not already paid the Direct Claimant, and the Indirect Claimant provides a release of the Asbestos Trust, the Debtor, the Reorganized Debtor, the Non-Debtor Affiliates, and the other Protected Parties pursuant to a document substantially in the form and substance of the Asbestos Claimant Release for the Indirect Asbestos Claim, the Asbestos Trust shall reimburse the Indirect Claimant the amount of the liability or obligation so paid, times the then applicable Payment Percentage. However, in no event shall such reimbursement to the Indirect Claimant be greater than the amount to which the Direct Claimant would have otherwise been entitled. Further, the liquidated value of any Indirect Asbestos Claim paid by the Asbestos Trust to an Indirect Claimant shall be treated as an offset to or reduction of the full liquidated value of any Asbestos Claim that might be subsequently asserted by the Direct Claimant against the Asbestos Trust.

Any dispute between the Asbestos Trust and an Indirect Claimant over whether the Indirect Claimant has a right to reimbursement for any amount paid to a Direct Claimant shall be subject to the ADR Procedures provided in Section 5.10 below. If such dispute is not resolved by said ADR Procedures, the Indirect Claimant may litigate the dispute in the tort system pursuant to Sections 5.11 and 7.6 below.

The Trustees may develop and approve a separate proof of claim form for Indirect Asbestos Claims. Indirect Asbestos Claims that have not been disallowed, discharged, or otherwise resolved by prior order of the Bankruptcy Court shall be processed in accordance with procedures to be

developed and implemented by the Trustees consistent with the provisions of this Section 5.6, which procedures shall (a) determine the validity, acceptability and enforceability of such claims; and (b) otherwise provide the same liquidation and payment procedures and rights to the holders of such claims as the Asbestos Trust would have afforded the holders of the underlying Asbestos Claims.

5.7 Evidentiary Requirements.

5.7(a) Medical Evidence.

5.7(a)(1) In General. All diagnoses of a Disease Level shall be accompanied by either (i) a statement by the physician providing the diagnosis that at least ten (10) years have elapsed between the date of first exposure to asbestos or asbestos-containing products and the diagnosis, or (ii) a history of the claimant's exposure sufficient to establish a 10-year latency period. A finding by a physician after the Effective Date that a claimant's disease is "consistent with" or "compatible with" asbestosis shall not alone be treated by the Asbestos Trust as a diagnosis. For all Asbestos Claims, including Foreign Claims, all evidence submitted to the Asbestos Trust must be in English.

5.7(a)(1)(A) Disease Levels I–IV. Except for asbestos claims filed against Old O-I, the Debtor or any other defendant in the tort system prior to the Petition Date, all diagnoses of a non-malignant asbestos-related disease (Disease Levels I–IV) shall be based in the case of a claimant who was living at the time the claim was filed, upon a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease. All living claimants must also provide (i) for Disease Levels I–III, evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in Footnote 7 above); (ii) for Disease Level III, pulmonary function testing; and (iii) for Disease Level IV, an ILO reading of 2/1 or greater

or pathological evidence of asbestosis and pulmonary function testing (unless the claimant is able to meet the requirements in (1)(c) of the Medical/Exposure Criteria for Severe Asbestosis in Section 5.3(a)(3) above).^{13 14}

In the case of a claimant who was deceased at the time the claim was filed, all diagnoses of Disease Levels I-III shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, (ii) pathological evidence of the non-malignant asbestos-related disease, or (iii) evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in Footnote 7 above). In the case of a claimant who was deceased at the time the claim was filed, all diagnoses of Severe Asbestosis (Disease Level IV) shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis along with an ILO reading of 2/1 or greater, (ii) pathological evidence of asbestosis, or (iii) the medical documentation required for an “Asbestosis Death” in Section 5.3(a)(3) above. In the case of a Severe Asbestosis diagnosis based on (i) or (ii) in the preceding sentence, the claimant must also provide pulmonary function testing (unless the claimant is able to meet the

¹³ All diagnoses of Asbestos/Pleural Disease (Disease Levels II and III) not based on pathology shall be presumed to be based on findings of bilateral asbestosis or pleural disease, and all diagnoses of Mesothelioma (Disease Level VIII) shall be presumed to be based on findings that the disease involves a malignancy. However, the Asbestos Trust may rebut such presumptions.

¹⁴ “Pulmonary function testing” or “PFT” shall mean testing that is in material compliance with the quality criteria established by the American Thoracic Society (“ATS”) and is performed on equipment which is in material compliance with ATS standards for technical quality and calibration. PFT performed in a hospital accredited by the JCAHO, or performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician shall be presumed to comply with ATS standards, and the claimant may submit a summary report of the testing. If the PFT was not performed in an JCAHO-accredited hospital, or performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician, the claimant must submit the full report of the testing (as opposed to a summary report); provided, however, that if the PFT was conducted prior to the Effective Date of the Plan and the full PFT report is not available, the claimant must submit a declaration signed by a Qualified Physician or other qualified party, in the form provided by the Asbestos Trust, certifying that the PFT was conducted in material compliance with ATS standards.

requirements in 1(c) of the Medical/Exposure Criteria for Severe Asbestosis in Section 5.3(a)(3) above).

5.7(a)(1)(B) Disease Levels V–VIII. All diagnoses of an asbestos-related malignancy (Disease Levels V–VIII) shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or (ii) a diagnosis of such a malignant Disease Level by a board-certified pathologist or by a pathology report prepared at or on behalf of a hospital accredited by the Joint Commission on Accreditation of Healthcare Organizations (“**JCAHO**”); provided, however, that in the case of a deceased Disease Level VIII claimant, such claimant may instead elect to establish a diagnosis of mesothelioma by providing (a) medical records or statements from a treating physician demonstrating that the claimant was treated for mesothelioma during his or her lifetime and (b) a death certificate signed by a licensed physician identifying mesothelioma as the cause of death.

5.7(a)(1)(C) Exception to the Exception for Certain Pre-Petition Claims. If the holder of an Asbestos Claim that was filed against Old O-I, the Debtor or any other defendant in the tort system prior to the Petition Date has available a report of a diagnosing physician engaged by the holder or his or her law firm who conducted a physical examination of the holder as described in Sections 5.7(a)(1)(A), or if the holder has filed such medical evidence and/or a diagnosis of the asbestos-related disease by a physician not engaged by the holder or his or her law firm who conducted a physical examination of the holder with another asbestos-related personal injury settlement trust that requires such evidence, without regard to whether the claimant or the law firm engaged the diagnosing physician, the holder shall provide such medical evidence and/or diagnosis to the Asbestos Trust notwithstanding the exception in Section 5.7(a)(1)(A) above.

5.7(a)(2) Credibility of Medical Evidence. Before making any payment to a claimant, the Asbestos Trust must have reasonable confidence that the medical evidence provided in support of the claim is credible and consistent with recognized medical standards. The Asbestos Trust may require the submission of X-rays, CT scans, detailed results of pulmonary function tests, laboratory tests, tissue samples, results of medical examinations or reviews of other medical evidence, and may require that medical evidence submitted comply with recognized medical standards regarding equipment, testing methods and procedures to assure that such evidence is reliable. Medical evidence (i) that is of a kind shown to have been received in evidence by a state or federal judge at trial, (ii) that is consistent with evidence submitted to Old O-I or the Debtor to settle for payment similar disease cases prior to the Petition Date, or (iii) that is a diagnosis by a physician shown to have previously qualified as a medical expert with respect to the asbestos-related disease in question before a state or federal judge, is presumptively reliable, although the Asbestos Trust may seek to rebut the presumption. In addition, except for Foreign Claims, claimants who otherwise meet the requirements of this TDP for payment of an Asbestos Claim shall be paid irrespective of the results in any litigation at any time between the claimant and any other defendant in the applicable tort system. However, any relevant evidence submitted in a proceeding in the tort system, other than any findings of fact, a verdict, or a judgment, involving another defendant may be introduced by either the claimant or the Asbestos Trust in any Individual Review proceeding conducted pursuant to Section 5.3(b) above or any Extraordinary Claim proceeding conducted pursuant to 5.4(a) above.

5.7(b) Exposure Evidence.

5.7(b)(1) In General. As set forth above in Section 5.3(a)(3), to qualify for any Disease Level, the claimant must demonstrate a minimum exposure to asbestos or Asbestos

Containing Products¹⁵ for which the Debtor has legal responsibility. Claims based on conspiracy theories that involve no such exposure are not compensable under this TDP. To meet the presumptive exposure requirements of Expedited Review set forth in Section 5.3(a)(3) above, the claimant must show (i) for all Disease Levels, Debtor Exposure as defined in Section 5.7(b)(3) below; (ii) for Asbestos/Pleural Disease Level II, six (6) months Debtor Exposure, plus five years cumulative occupational asbestos exposure; and (iii) for Asbestosis/Pleural Disease (Disease Level III), Severe Asbestosis (Disease Level IV), Other Cancer (Disease Level V), or Lung Cancer 1 (Disease Level VII), six (6) months Debtor Exposure, plus Significant Occupational Exposure to asbestos. If the claimant cannot meet the relevant presumptive exposure requirements for a Disease Level eligible for Expedited Review, the claimant may seek Individual Review pursuant to Section 5.3(b) of his or her Asbestos Claim.

5.7(b)(2) Significant Occupational Exposure. “**Significant Occupational Exposure**” means employment for a cumulative period of at least five (5) years in an industry and an occupation in which the claimant (a) handled raw asbestos fibers on a regular basis; (b) fabricated asbestos-containing products so that the claimant in the fabrication process was exposed on a regular basis to raw asbestos fibers; (c) altered, repaired or otherwise worked with an asbestos-containing product such that the claimant was exposed on a regular basis to asbestos fibers; or (d) was employed in an industry and occupation such that the claimant worked

¹⁵ “Asbestos Containing Products” is defined in the Plan to mean asbestos-containing products, equipment, components, parts, improvements to real property, or materials engineered, designed, marketed, manufactured, constructed, sold, supplied, produced, installed, maintained, serviced, specified, selected, repaired, removed, replaced, released, or distributed by, or in any other way made available, or present at any premises owned, leased, occupied or operated by, the Debtor (including, without limitation, any of the Debtor’s direct or indirect predecessors), including without limitation any of those products manufactured, sold, or distributed by, or in any other way made available, or present at any premises owned, leased, occupied or operated by, Old O-I.

on a regular basis in close proximity to workers engaged in the activities described in (a), (b), and/or (c) above.

5.7(b)(3) Debtor Exposure. The claimant must demonstrate meaningful and credible exposure, which occurred on or prior to December 31, 1958, to asbestos or Asbestos Containing Products for which the Debtor has legal responsibility (“**Debtor Exposure**”). That meaningful and credible exposure evidence may be established by an affidavit or sworn statement of the claimant, a co-worker, or a family member in the case of a deceased claimant (providing the Asbestos Trust finds such evidence reasonably reliable), by invoices, employment, construction, or similar records, or by other credible evidence. The specific exposure information required by the Asbestos Trust to process a claim under either Expedited or Individual Review shall be set forth on the proof of claim form to be used by the Asbestos Trust. The Asbestos Trust may also require submission of other or additional evidence of exposure when it deems such to be necessary.

The Asbestos Trust has no need for, and therefore claimants are not required to furnish the Asbestos Trust with evidence of, exposure to specific asbestos or asbestos-containing products other than those for which Debtor has legal responsibility, except to the extent such evidence is required elsewhere in this TDP. Similarly, failure to identify Old O-I’s products in the claimant’s underlying tort action, or to other bankruptcy trusts, does not preclude the claimant from recovering from the Asbestos Trust, provided the claimant satisfies the medical and exposure requirements of this TDP.

5.8 Claims Audit Program. The Asbestos Trust, with the consent of the TAC and the Post-Effective Date Future Claimants’ Representative, shall develop a Claims Audit Program. Such Claims Audit Program may include methods for auditing the reliability of medical evidence, including additional reading of X-rays, CT scans and verification of pulmonary function tests, as

well as the reliability of evidence of exposure to asbestos, including exposure to asbestos-containing products for which the Asbestos Trust has responsibility. In the event that the Asbestos Trust reasonably determines that any individual or entity has engaged in a pattern or practice of providing unreliable medical evidence to the Asbestos Trust, it may decline to accept additional evidence from such provider in the future.

The Asbestos Trust shall utilize the services of a third-party claims processing facility (the “**Claims Processor**”) to assist in the evaluation of claims submitted to the Asbestos Trust and shall participate in a cross-trust audit program (the “**Cross-Trust Audit Program**”). The Cross-Trust Audit Program shall include a comparison of claims filed with the Asbestos Trust against claims filed with all other asbestos trusts administered by the Claims Processor that participate in the Cross-Trust Audit Program, but shall include no fewer than four other trusts. The filing of any claim with the Asbestos Trust, regardless of the treatment sought, shall constitute consent for each other asbestos trust participating in the Cross-Trust Audit Program to release to the entity overseeing the Cross-Trust Audit Program (the “**Auditor**”) all information submitted to such other asbestos trust by or on behalf of the claimant pursuant to the provisions of the Cross-Trust Audit Program and to disclose the status of any such claim and the amount and the date of any payment on the claim to the Auditor.

To the extent that the Trustees believe that it is relevant, nothing herein shall preclude the Asbestos Trust or the Auditor, in the Trustees’ sole discretion, from reviewing or taking into consideration filed state court complaints or claims filed against other asbestos trusts. Any claimant subject to the Asbestos Trust’s Claims Audit Program or Cross-Trust Audit Program shall cooperate and, if requested by the Trustees, provide the Asbestos Trust or the Auditor with

authorization to obtain from other asbestos trusts any information such claimant has submitted to such other asbestos trusts.

In the event that an audit reveals that fraudulent information has been provided to the Asbestos Trust, the Asbestos Trust may penalize any claimant or claimant's attorney by rejecting the Asbestos Claim or by other means including, but not limited to, requiring the source of the fraudulent information to pay the costs associated with the audit and any future audit or audits, reordering the priority of payment of all affected claimants' Asbestos Claims, raising the level of scrutiny of additional information submitted from the same source or sources, refusing to accept additional evidence from the same source or sources, seeking the prosecution of the claimant or claimant's attorney for presenting a fraudulent claim in violation of 18 U.S.C. § 152, and seeking sanctions from the Bankruptcy Court.

5.9 Second Disease Claims. Notwithstanding the provisions of Section 2.1 above, the holder of an Asbestos Claim involving a non-malignant asbestos-related disease (Disease Levels I-IV) may assert a new Asbestos Claim against the Asbestos Trust for a malignant disease (Disease Levels V-VIII) that is subsequently diagnosed. Any additional payments to which such claimant may be entitled with respect to such malignant asbestos-related disease shall be reduced by the amount paid for the non-malignant asbestos-related disease.

The holder of an Asbestos Claim involving a Disease Level I, II or III claim may assert a new Asbestos Claim against the Asbestos Trust for a Disease Level IV claim that is subsequently diagnosed. Any additional payments to which such claimant may be entitled with respect to such subsequent claim shall be reduced by the amount paid for the prior claim.

5.10 Arbitration.

5.10(a) Establishment of ADR Procedures. The Asbestos Trust, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, shall establish binding and non-binding arbitration procedures as part of the Alternative Dispute Resolution Procedures (the "**ADR Procedures**") to be established by the Trustees with the consent of the TAC and the Post-Effective Date Future Claimants' Representative for resolving disputes concerning whether a pre-petition settlement agreement or an administrative claims processing agreement with Old O-I is binding and judicially enforceable in the absence of a Final Order of the Bankruptcy Court determining the issue, whether the Asbestos Trust's rejection or denial of a claim was proper, or whether the claimant's medical condition or exposure history meets the requirements of this TDP for purposes of categorizing a claim involving Disease Levels I–VIII. Binding and non-binding arbitration shall also be available for resolving disputes over the liquidated value of a claim, as well as disputes over the Debtor's share of the unpaid portion of a Pre-Petition Liquidated Claim described in Section 5.2 above and disputes over the validity of an Indirect Asbestos Claim.

In all arbitrations, the arbitrator shall consider the same medical and exposure evidentiary requirements that are set forth in Section 5.7 above. In the case of an arbitration involving the liquidated value of a claim involving Disease Levels IV–VIII, the arbitrator shall consider the same valuation factors that are set forth in Section 5.3(b)(2) above. In order to facilitate the Individual Review Process with respect to such claims, the Asbestos Trust may develop a valuation model that enables the Asbestos Trust to efficiently make initial liquidated value offers on those claims in the Individual Review setting. In an arbitration involving any such claim, the Asbestos Trust shall neither offer into evidence or describe any such model nor assert that any information generated by the model has any evidentiary relevance or should be used by the arbitrator in

determining the presumed correct liquidated value in the arbitration. The underlying data that was used to create the model may be relevant and may be made available to the arbitrator but only if provided to the claimant or his or her counsel at least ten (10) days prior to the arbitration proceeding.

With respect to all claims eligible for arbitration, the claimant, but not the Asbestos Trust, may elect either non-binding or binding arbitration. The ADR Procedures may be modified by the Asbestos Trust with the consent of the TAC and the Post-Effective Date Future Claimants' Representative.

5.10(b) Claims Eligible for Arbitration. In order to be eligible for arbitration, the claimant must first complete the Individual Review Process with respect to the disputed issue as well as any other processes required under the ADR Procedures. Individual Review shall be treated as completed for these purposes when the claim has been individually reviewed by the Asbestos Trust, the Asbestos Trust has made an offer on the claim, the claimant has rejected the liquidated value resulting from the Individual Review, and the claimant has notified the Asbestos Trust of the rejection in writing. Individual Review shall also be treated as completed if the Asbestos Trust has rejected the claim.

5.10(c) Limitations on and Payment of Arbitration Awards. In the case of a claim involving Disease Level I - III, the arbitrator shall not return an award in excess of the Scheduled Value for such claim. In the case of a non-Extraordinary Claim involving Disease Levels IV–VIII, the arbitrator shall not return an award in excess of the Maximum Value for the appropriate Disease Level as set forth in Section 5.3(a)(3) above, and for an Extraordinary Claim involving one of those Disease Levels, the arbitrator shall not return an award greater than the maximum extraordinary value for such a claim as set forth in Section 5.4(a) above. A claimant

who submits to arbitration and who accepts the arbitral award shall receive payments in the same manner as one who accepts the Asbestos Trust's original valuation of the claim.

5.11 Litigation. Claimants who elect non-binding arbitration and then reject their arbitral awards retain the right to institute a lawsuit in the tort system against the Asbestos Trust pursuant to Section 7.6 below. However, a claimant shall be eligible for payment of a judgment for monetary damages obtained in the tort system from the Asbestos Trust's available cash only as provided in Section 7.7 below.

SECTION 6

Claims Materials

6.1 Claims Materials. The Asbestos Trust shall prepare suitable and efficient claims materials ("**Claims Materials**") for all Asbestos Claims, and shall provide such Claims Materials upon a written request for such materials to the Asbestos Trust. The proof of claim form to be submitted to the Asbestos Trust shall require the claimant to assert the highest Disease Level for which the claim qualifies at the time of filing. The proof of claim form shall also include a certification by the claimant or his or her attorney sufficient to meet the requirements of Rule 11(b) of the Federal Rules of Civil Procedure. In developing its claim filing procedures, the Asbestos Trust shall make every effort to provide claimants with the opportunity to utilize currently available technology at their discretion, including filing claims and supporting documentation over the internet and electronically by disk or CD-ROM. The proof of claim form to be used by the Asbestos Trust shall be developed by the Asbestos Trust and submitted to the TAC and the Post-Effective Date Future Claimants' Representatives for approval; it may be changed by the Asbestos Trust with the consent of the TAC and the Post-Effective Date Future Claimants' Representative.

6.2 Content of Claims Materials. The Claims Materials shall include a copy of this TDP, such instructions as the Trustees shall approve, and a detailed proof of claim form. If

feasible, the forms used by the Asbestos Trust to obtain claims information shall be the same or substantially similar to those used by other asbestos claims resolution organizations. The Asbestos Trust shall accept information provided electronically. Except as otherwise set forth herein with respect to Extraordinary Claims, the claimant may, but shall not be required to, provide the Asbestos Trust with evidence of recovery from other defendants and claims resolution organizations.

6.3 Withdrawal or Deferral of Claims. A claimant may withdraw an Asbestos Claim at any time upon written notice to the Asbestos Trust and file another claim subsequently without affecting the status of the claim for statute of limitations purposes, but any such claim filed after withdrawal shall be given a place in the FIFO Processing Queue based on the date of such subsequent filing. A claimant may also request that the processing of his or her Asbestos Claim by the Asbestos Trust be deferred for a period not to exceed three (3) years without affecting the status of the claim for statute of limitations and repose purposes, in which case the claimant shall also retain his or her original place in the FIFO Processing Queue. During the period of such deferral, a sequencing adjustment on such claimant's Asbestos Claim as provided in Section 7.5 hereunder shall not accrue and payment thereof shall be deemed waived by the claimant. Except for Asbestos Claims held by representatives of deceased or incompetent claimants for which court or probate approval of the Asbestos Trust's offer is required, or an Asbestos Claim for which deferral status has been granted, a claim shall be deemed to have been withdrawn if the claimant neither accepts, rejects, nor initiates arbitration within one (1) year of the Asbestos Trust's written offer of payment or rejection of the claim. Upon written request and good cause, the Asbestos Trust may extend the withdrawal or deferral period for an additional six (6) months.

6.4 Filing Fees. The Trustees shall have the discretion to determine, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, whether a filing fee should be required for any Asbestos Claims.

6.5 Confidentiality of Claimants' Submissions. All submissions to the Asbestos Trust by a holder of an Asbestos Claim, including a proof of claim form and materials related thereto, and all responses by the Asbestos Trust shall be treated as made in the course of settlement negotiations between the holder and the Asbestos Trust, and intended by the parties to be confidential and to be protected by all applicable state and federal privileges, including but not limited to those directly applicable to settlement negotiations. The submissions and responses are exchanged with reliance on such confidentiality, and all such evidence is inadmissible in any judicial or administrative proceeding for any purpose other than the exceptions stated in Federal Rule of Evidence 408. The Asbestos Trust will preserve the confidentiality of such claimant submissions and Asbestos Trust responses, and shall disclose the contents thereof only (i) with the permission of the holder, to another trust established for the benefit of asbestos personal injury claimants pursuant to section 524(g) of the Bankruptcy Code or other applicable law, (ii) to such other persons as authorized by the holder, or (iii) in response to a valid subpoena of such materials issued by the Bankruptcy Court, a Delaware State Court, or the United States District Court for the District of Delaware. Furthermore, the Asbestos Trust shall provide counsel for the holder a copy of any such subpoena immediately after being served; provided, however, that if a subpoena seeks records or information pertaining to more than fifty (50) claimants, the Asbestos Trust may instead first provide a copy of the subpoena to counsel for the TAC and the Post-Effective Date Future Claimants' Representative and delay providing a copy of the subpoena to counsel for individual holders of Asbestos Claims until, in the Trustees' judgment, it appears likely that

information or records relating to the holders may have to be produced in response to the subpoena. In such a case, the Asbestos Trust shall ensure that the notice that is provided to counsel for the holders allows such counsel sufficient time to object to the production. The Asbestos Trust shall on its own initiative or upon request of the claimant in question take all necessary and appropriate steps to preserve said privileges before the Bankruptcy Court, a Delaware State Court, or the United States District Court for the District of Delaware and before those courts having appellate jurisdiction related thereto. Nothing in this TDP, the Plan, or the Asbestos Trust Agreement expands, limits or impairs the obligation under applicable law of a claimant to respond fully to lawful discovery in any underlying civil action regarding his or her submission of factual information to the Asbestos Trust for the purpose of obtaining compensation for asbestos-related injuries from the Asbestos Trust.

SECTION 7

General Guidelines for Liquidating and Paying Asbestos Claims

7.1 Showing Required. To establish a compensable Asbestos Claim, a claimant must meet the requirements set forth in this TDP.

7.2 Costs Considered. Notwithstanding any provisions of this TDP to the contrary, the Trustees shall always give appropriate consideration to the cost of investigating and uncovering invalid Asbestos Claims so that the payment of compensable Asbestos Claims is not further impaired by such processes with respect to issues related to the validity of the medical evidence supporting an Asbestos Claim. The Trustees shall also have the latitude to make judgments regarding the costs to be expended by the Asbestos Trust so that compensable Asbestos Claims are not unduly further impaired by the costs of additional investigation. Nothing herein shall prevent the Trustees, in appropriate circumstances, from contesting the validity of any claim filed with the Asbestos Trust whatever the costs, or declining to accept medical evidence from sources

that the Trustees have determined to be unreliable pursuant to the Claims Audit Program implemented pursuant to Section 5.8 above, or otherwise.

7.3 Discretion to Vary the Order and Amounts of Payments in Event of Limited Liquidity. Consistent with the provisions hereof and subject to the FIFO Processing Queue and the FIFO Payment Queue, the Maximum Annual Payment, the Maximum Available Payment, and the Claims Payment Ratio requirements set forth above, the Trustees shall proceed as quickly as possible to liquidate compensable Asbestos Claims, and shall make payments to holders of such claims in accordance with this TDP promptly as funds become available and as claims are liquidated, while maintaining sufficient resources to pay future compensable claims in substantially the same manner.

Because the Asbestos Trust's income and liabilities over time remain uncertain, and decisions about payments must be based on estimates that cannot be done precisely, such decisions may have to be revised in light of experiences over time, and there can be no guarantee of any specific level of payment to claimants. However, the Trustees shall use their best efforts to treat similar claims in substantially the same manner, consistent with their duties as Trustees, the purposes of the Asbestos Trust, the established allocation of funds to claims in Categories A and B, and the practical limitations imposed by the inability to predict the future with precision.

In the event that the Asbestos Trust faces temporary periods of limited liquidity, the Trustees may, with the consent of the TAC and the Post-Effective Date Future Claimants' Representative, (a) suspend the normal order of payment, (b) temporarily limit or suspend payments altogether, or (c) commence making payments on an installment basis.

7.4 Punitive Damages. Except as provided below for claims asserted under the Alabama Wrongful Death Statute, in determining the value of any liquidated or unliquidated

Asbestos Claim, punitive or exemplary damages, i.e., damages other than compensatory damages, shall not be considered or paid, notwithstanding their availability in the tort system.

Similarly, no punitive or exemplary damages shall be payable with respect to any claim litigated against the Asbestos Trust in the tort system pursuant to Sections 5.11 above and 7.6 below. The only damages that may be awarded pursuant to this TDP to Alabama Claimants who are deceased and whose personal representatives pursue their claims only under the Alabama Wrongful Death Statute shall be compensatory damages determined pursuant to the statutory and common law of the Commonwealth of Pennsylvania, without regard to its choice of law principles. The choice of law provision in this Section 7.4 applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant's Jurisdiction pursuant to Section 5.3(b)(2) is determined to be the Alabama Wrongful Death Statute, shall only govern the rights between the Asbestos Trust and the claimant including, but not limited to, suits in the tort system pursuant to Section 7.6.

7.5 Sequencing Adjustment.

7.5(a) In General. Except for any Asbestos Claim involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) and subject to the limitations set forth below, a sequencing adjustment shall be paid on all Asbestos Claims with respect to which the claimant has had to wait a year or more for payment, provided, however, that no claimant shall receive a sequencing adjustment for a period in excess of six (6) years, or for a period when the claim was deferred, withdrawn, or the subject of an outstanding offer from the Asbestos Trust. The sequencing adjustment factor shall be one percent (1%) per year.

7.5(b) Unliquidated Asbestos Claims. A sequencing adjustment shall be payable on the Scheduled Value of any unliquidated Asbestos Claim that meets the requirements of Disease

Levels II–V, VII and VIII, whether the claim is liquidated under Expedited Review, Individual Review, or by arbitration. No sequencing adjustment shall be paid on any claim involving Disease Level I or on any claim liquidated in the tort system pursuant to Section 5.11 above and Section 7.6 below. The sequencing adjustment on an unliquidated Asbestos Claim that meets the requirements of Disease Level VI shall be based on the Average Value of such a claim. Sequencing adjustments on all such unliquidated claims shall be measured from the date of payment back to the earliest of the date that is one year after the date on which (a) the claim was filed against Old O-I or the Debtor prior to the Petition Date; (b) the claim was filed against another defendant in the tort system on or after the Petition Date but before the Effective Date; (c) the claim was filed with the Bankruptcy Court during the pendency of the Chapter 11 proceeding; or (d) the claim was filed with the Asbestos Trust after the Effective Date.

7.5(c) Pre-Petition Liquidated Claims. A sequencing adjustment shall also be payable on the liquidated value of all Pre-Petition Liquidated Claims described in Section 5.2(a) above. In the case of Pre-Petition Liquidated Claims liquidated by verdict or judgment, the sequencing adjustment shall be measured from the date of payment back to the date that is one (1) year after the date that the verdict or judgment was entered; provided, however, that in no event shall the sequencing adjustment be measured from a date prior to the Petition Date if the liquidated value of the Pre-Petition Liquidated Claim includes pre-petition interest. In the case of Pre-Petition Liquidated Claims liquidated by a binding, judicially enforceable settlement or a binding, judicially enforceable administrative claims processing agreement, the sequencing adjustment shall be measured from the date of payment back to the date that is one (1) year after the Petition Date.

7.6 Suits in the Tort System. If the holder of a disputed claim disagrees with the Asbestos Trust's determination regarding the Disease Level of the claim, the claimant's exposure or medical history, the compensability of the claim under the provisions of this TDP, or the liquidated value of the claim, and if the holder has first submitted the claim to non-binding arbitration as provided in Section 5.10 above, the holder may file a lawsuit against the Asbestos Trust in the Claimant's Jurisdiction as defined in Section 5.3(b)(2) above. Any such lawsuit must be filed by the claimant in his or her own right and name and not as a member or representative of a class, and no such lawsuit may be consolidated with any other lawsuit. All defenses (including, with respect to the Asbestos Trust, all defenses which could have been asserted by the Debtor or Old O-I, except as otherwise provided in the Plan) shall be available to both sides at trial; however, the Asbestos Trust may waive any defense and/or concede any issue of fact or law. If the claimant was alive at the time the initial pre-petition complaint was filed or on the date the proof of claim form was filed with the Asbestos Trust, the case shall be treated as a personal injury case with all personal injury damages to be considered even if the claimant has died during the pendency of the claim.

7.7 Payment of Judgments for Money Damages. If and when a claimant obtains a judgment in the tort system, the claim shall be placed in the FIFO Payment Queue based on the date on which the judgment became final. Thereafter, the claimant shall receive from the Asbestos Trust an initial payment (subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio provisions set forth above) of an amount equal to the greater of (i) the Asbestos Trust's last offer to the claimant or (ii) the award that the claimant declined in non-binding arbitration; provided, however, that in no event shall such payment amount exceed the amount of the judgment obtained in the tort system. The claimant shall receive

the balance of the judgment, if any, in five (5) equal installments in years six (6) through ten (10) following the year of the initial payment (also subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio provisions above in effect on the date of the payment of the subject installment).

In the case of a claim involving Disease Level I - III, the total amounts paid with respect to such claim shall not exceed the Scheduled Value for such Disease Level. In the case of a claim that does not attain classification under a Disease Level, the amount payable shall not exceed the Scheduled Value for the Disease Level most comparable to the disease proven. In the case of non-Extraordinary claims involving Disease Levels IV–VIII, the total amounts paid with respect to such claims shall not exceed the Maximum Values for such Disease Levels set forth in Section 5.3(b)(3). In the case of Extraordinary Claims, the total amounts paid with respect to such claims shall not exceed the maximum extraordinary values for such claims set forth in Section 5.4(a) above. Under no circumstances shall (a) sequencing adjustments be paid pursuant to Section 7.5 or (b) interest be paid under any statute on any judgments obtained in the tort system.

7.8 Releases. As a condition to receiving any payment from the Asbestos Trust, a claimant shall be required to execute an Asbestos Claimant Release. The form of the Asbestos Claimant Release shall be substantially in the form attached to the Plan as Exhibit D. The Trustees may modify the provisions of the Asbestos Claimant Release with the consent of the TAC and the Post-Effective Date Future Claimants' Representative; provided, however, that no such change shall be inconsistent with the terms of the Plan or the Confirmation Order and/or modify in any way the releases and injunctions contained in the Plan or the Confirmation Order.

7.9 Third-Party Services. Nothing in this TDP shall preclude the Asbestos Trust from contracting with another asbestos claims resolution organization to provide services to the

Asbestos Trust so long as decisions about the categorization and liquidated value of Asbestos Claims are based on the relevant provisions of this TDP, including the Disease Levels, Scheduled Values, Average Values, Maximum Values, and Medical/Exposure Criteria set forth above.

SECTION 8

Miscellaneous

8.1 Amendments. Except as otherwise provided herein, the Trustees may amend, modify, delete, or add to any provisions of this TDP (including, without limitation, amendments to conform this TDP to advances in scientific or medical knowledge or other changes in circumstances), provided the Trustees first obtain the consent of the TAC and the Post-Effective Date Future Claimants' Representative pursuant to the consent process set forth in Sections 5.7(b) and 6.6(b) of the Asbestos Trust Agreement, except that the right to amend the Claims Payment Ratio is governed by the restrictions in Section 2.5 above, and the right to adjust the Payment Percentage is governed by Section 4.2 above. Nothing herein is intended to preclude the TAC or the Post-Effective Date Future Claimants' Representatives from proposing to the Trustees, in writing, amendments to this TDP. Any amendment proposed by the TAC or the Post-Effective Date Future Claimants' Representatives shall remain subject to Section 7.3 of the Asbestos Trust Agreement. Notwithstanding the foregoing, no amendment shall be made to this TDP or the Asbestos Claimant Release that would adversely affect any rights, duties, immunities, indemnification, or liabilities of the Reorganized Debtor or any other Protected Party provided pursuant to the Plan or Confirmation Order, including, without limitation, the scope and terms of the releases and injunctions provided in the Plan and Confirmation Order, without the advance written consent of the Reorganized Debtor and O-I Glass, Inc., or their respective successors or assigns.

8.2 Severability. Should any provision contained in this TDP be determined to be unenforceable, such determination shall in no way limit or affect the enforceability or operative effect of any and all other provisions of this TDP.

8.3 Governing Law. Except for purposes of determining the liquidated value of any Asbestos Claim, administration of this TDP shall be governed by, and construed in accordance with, the laws of the State of Delaware. The law governing the determination of validity and/or liquidation of Asbestos Claims in the case of Individual Review, arbitration, or litigation in the tort system shall be the law of the Claimant's Jurisdiction as described in Section 5.3(b)(2) above.

**APPENDIX I: AUTHORIZATION FOR ASBESTOS TRUST TO OBTAIN TRUST
RECORDS**

**AUTHORIZATION FOR RELEASE OF RECORDS OF OTHER ASBESTOS
TRUSTS AND CLAIM RESOLUTION FACILITIES**

TO WHOM IT MAY CONCERN:

The Claimant named below hereby authorizes each asbestos trust and claim resolution facility listed in the attachment hereto to provide directly to the Owens-Illinois Asbestos Personal Injury Trust (the "Asbestos Trust"), or any of its representatives, all submissions made by Claimant and (if different from the Claimant) the party whose injury forms the basis of the claim (the "Injured Party"), including claim forms, any attachments to claim forms, and any amended or supplemental claim forms. Claimant expressly acknowledges that the other asbestos trust or claim resolution facility may provide such documents directly to the Asbestos Trust and need not obtain any further authorization from the Claimant or his/her representatives.

A copy of this Authorization shall be as valid as the original. This Authorization contains no expiration date and may be exercised by the Asbestos Trust at any time. If Claimant's representative has signed this Authorization, a notarized power of attorney is attached.

Name of Claimant: _____
Social Security No.: _____
Date of Birth: _____

Name of Injured Party (if different from Claimant): _____
